

March 5, 2019 4:08 PM from Glenn to everyone: There doesn't seem to be a 'Remember me' checkbox when launching the new webapp - unlike the Java thick client.

March 5, 2019 4:09 PM from Steven to everyone: when will this go GA?

March 5, 2019 4:10 PM from Neville to everyone: Is the memory utilisation of the thick client/webapp comparable (on the client PC)? Has it been tested with SiteMinder/SSO and what are the results? Has it been tested through a reverse proxy?

March 5, 2019 4:10 PM from David to everyone: Will all the customizations from the custom/console and custom/topo be visible in the webapp?

March 5, 2019 4:10 PM from Sarbdeep Singh to everyone: Hi Steve, we are planning to release the GA version in 10.3.2

March 5, 2019 4:11 PM from Sarbdeep Singh to everyone: @David, all the customization which you have done in thick will reflect in Webapp

March 5, 2019 4:12 PM from Steven to everyone: What are the system requirements for the webapp server running on the OneClick server?

March 5, 2019 4:12 PM from Sarbdeep Singh to everyone: @Steve, we have document the server requirement in doc, request you to review them

March 5, 2019 4:13 PM from Glenn to everyone: Many we apps can be made full-screen, to remove the browser borders. Is this supported?

March 5, 2019 4:13 PM from Glenn to everyone: web apps

March 5, 2019 4:14 PM from David to everyone: Are the different "look and feel" settings also available?

March 5, 2019 4:15 PM from Sarbdeep Singh to everyone: @Steve -- Yes its supported.

March 5, 2019 4:15 PM from Marco to everyone: How does the MIB Tools look like? Can you use it as a seperate window?

March 5, 2019 4:16 PM from Sarbdeep Singh to everyone: @David i will check and revert back

March 5, 2019 4:16 PM from Neville to everyone: In case you missed my questions: Has it been tested with SiteMinder/SSO and what are the results? Has it been tested through a reverse proxy?

March 5, 2019 4:17 PM from Glenn to everyone: Looks as though MIB tools kills the existing webapp console session - as in - it takes it over.

March 5, 2019 4:18 PM from Glenn to everyone: you are right - my error, it was hiding underneath!

March 5, 2019 4:18 PM from Glenn to everyone: MIB tools looks just the same - but no JRE required!

March 5, 2019 4:18 PM from Steven to everyone: What is the roadmap for the development of the webclient which appeared in 10.2.2?

March 5, 2019 4:19 PM from Neville to everyone: Thank you

March 5, 2019 4:21 PM from Glenn to everyone: Why no 'remember me' box at launch?

March 5, 2019 4:21 PM from Sarbdeep Singh to everyone:
Steve, we are going to enhance Webapp as it has all the capability of Onclick

March 5, 2019 4:21 PM from Sarbdeep Singh to everyone:
which eventually help us in moving away from Webclient

March 5, 2019 4:22 PM from Glenn to everyone: We *really* need this for Spectrum Service Manager, please.

March 5, 2019 4:22 PM from Sarbdeep Singh to everyone:
Glenn: Its in backlog :)

March 5, 2019 4:22 PM from Glenn to everyone: Ok, thanks.

March 5, 2019 4:22 PM from Glenn to everyone: Great, thanks.

March 5, 2019 4:22 PM from Glenn to everyone: Full screen mode? Remove browser borders?

March 5, 2019 4:23 PM from Glenn to everyone: Ok, thanks.

March 5, 2019 4:23 PM from Sarbdeep Singh to everyone: Hi Glenn, will check and revert back

March 5, 2019 4:23 PM from Glenn to everyone: It's really, really good.
