Communicate

Manage the lifecycle

Get at the Numbers

Tie them all together and you have something

PowerPoint® Slide, Excel® Sheet, and Trello® Board all reading the same data

- ✓ Timelines: Visualize and model work over time
- ✓ Boards: Manage the lifecycle of investments & work
- ✓ Grids: Simple data updates and entry of information

How People Work

Provide tools that work the way people do and you'll get adoption and acceptance. Don't focus on dashboards. What do people use to manage their lives?

Clarity

The fastest way to innovate

SIMPLE

Get work done with one solution built for every role.

USABLE

Accelerate planning with strategic roadmaps.

POWERFUL

Make smarter decisions based on real-time data.

How have others begun? What are the best practices?

- Guidance

- Find a new opportunity to onboard new groups
- Projects that have limited fields and modules are good place to start for the casual project manager
- Consider implementing ideas and roadmaps during your annual planning process; identify the next “event” to help you have a target and gain momentum
- Always engage a key stakeholder/user in the process – gain real world feedback, and make them a champion in the process
- Make sure there is “something for everyone”.... Turn on Views right away so people can see the data they have been contributing
- Reach new groups with Roadmaps bringing them out of classic ui and eliminate spreadsheets
- Create your Tableau (or) executive dashboard to roll up executive level information
- Stay connected with Broadcom – product management office hours and ask the experts – for continued weekly support
- Perform a gap analysis – where do you want “to be”?
- Look for quick wins – Phoenix ui, timesheets, roadmaps and blueprints

WHAT DO I WANT?	Prioritize investments based on value before beginning detailed planning. Enabling innovation and communication amongst a broad team. Provide clear picture of investments and visualize investments dependencies.	WHAT DO I WANT?	A top-down, integrated roadmap connecting capabilities being developed today with anticipated needs of the future. A complete picture of investments across multiple time horizon. A method of visualizing and communicating a proposed set of objectives.	WHAT DO I WANT?	Simple visual transparency to planned evolution of the product. Team collaboration and transparency of the product roadmap and vision. Not having to rebuild roadmaps in PowerPoint and Excel.

Ensure business goals are met through every project delivery.

- A PPM app that starts with the investment budget and plans down with a focus on business performance
- A PPM solution that enables clear focus on innovation, business goals and the enterprise roadmap, facilitating a common vision
- A PPM app that provides all stakeholders with all information in real time, presented in the way each individuals wants

Execute strategy to achieve all business goals every time.

- A PPM platform that directly connects decision with actions focused on achieving business goals. Adaptive planning tied directly to work adjustments
- A PPM app that provides real-time visibility into the entire portfolio in a context that is relevant to the audience
- A PPM app focused on investment management and value delivery, not a glorified project management tool focused on process and templates

Deliver innovative solutions that delight customers with every release.

- A PPM app that integrates product and project portfolios
- A PPM app that prioritizes top-down planning, anticipates change, and allows teams to pivot quickly
- A PPM app that supports the evolution from project management to product management

- Fund specific outcomes on a specific timeline
- Each outcome requires specific approval
- Changes require a rigid review process
- Resources cycle in and out depending on the work

Product Portfolio Approach

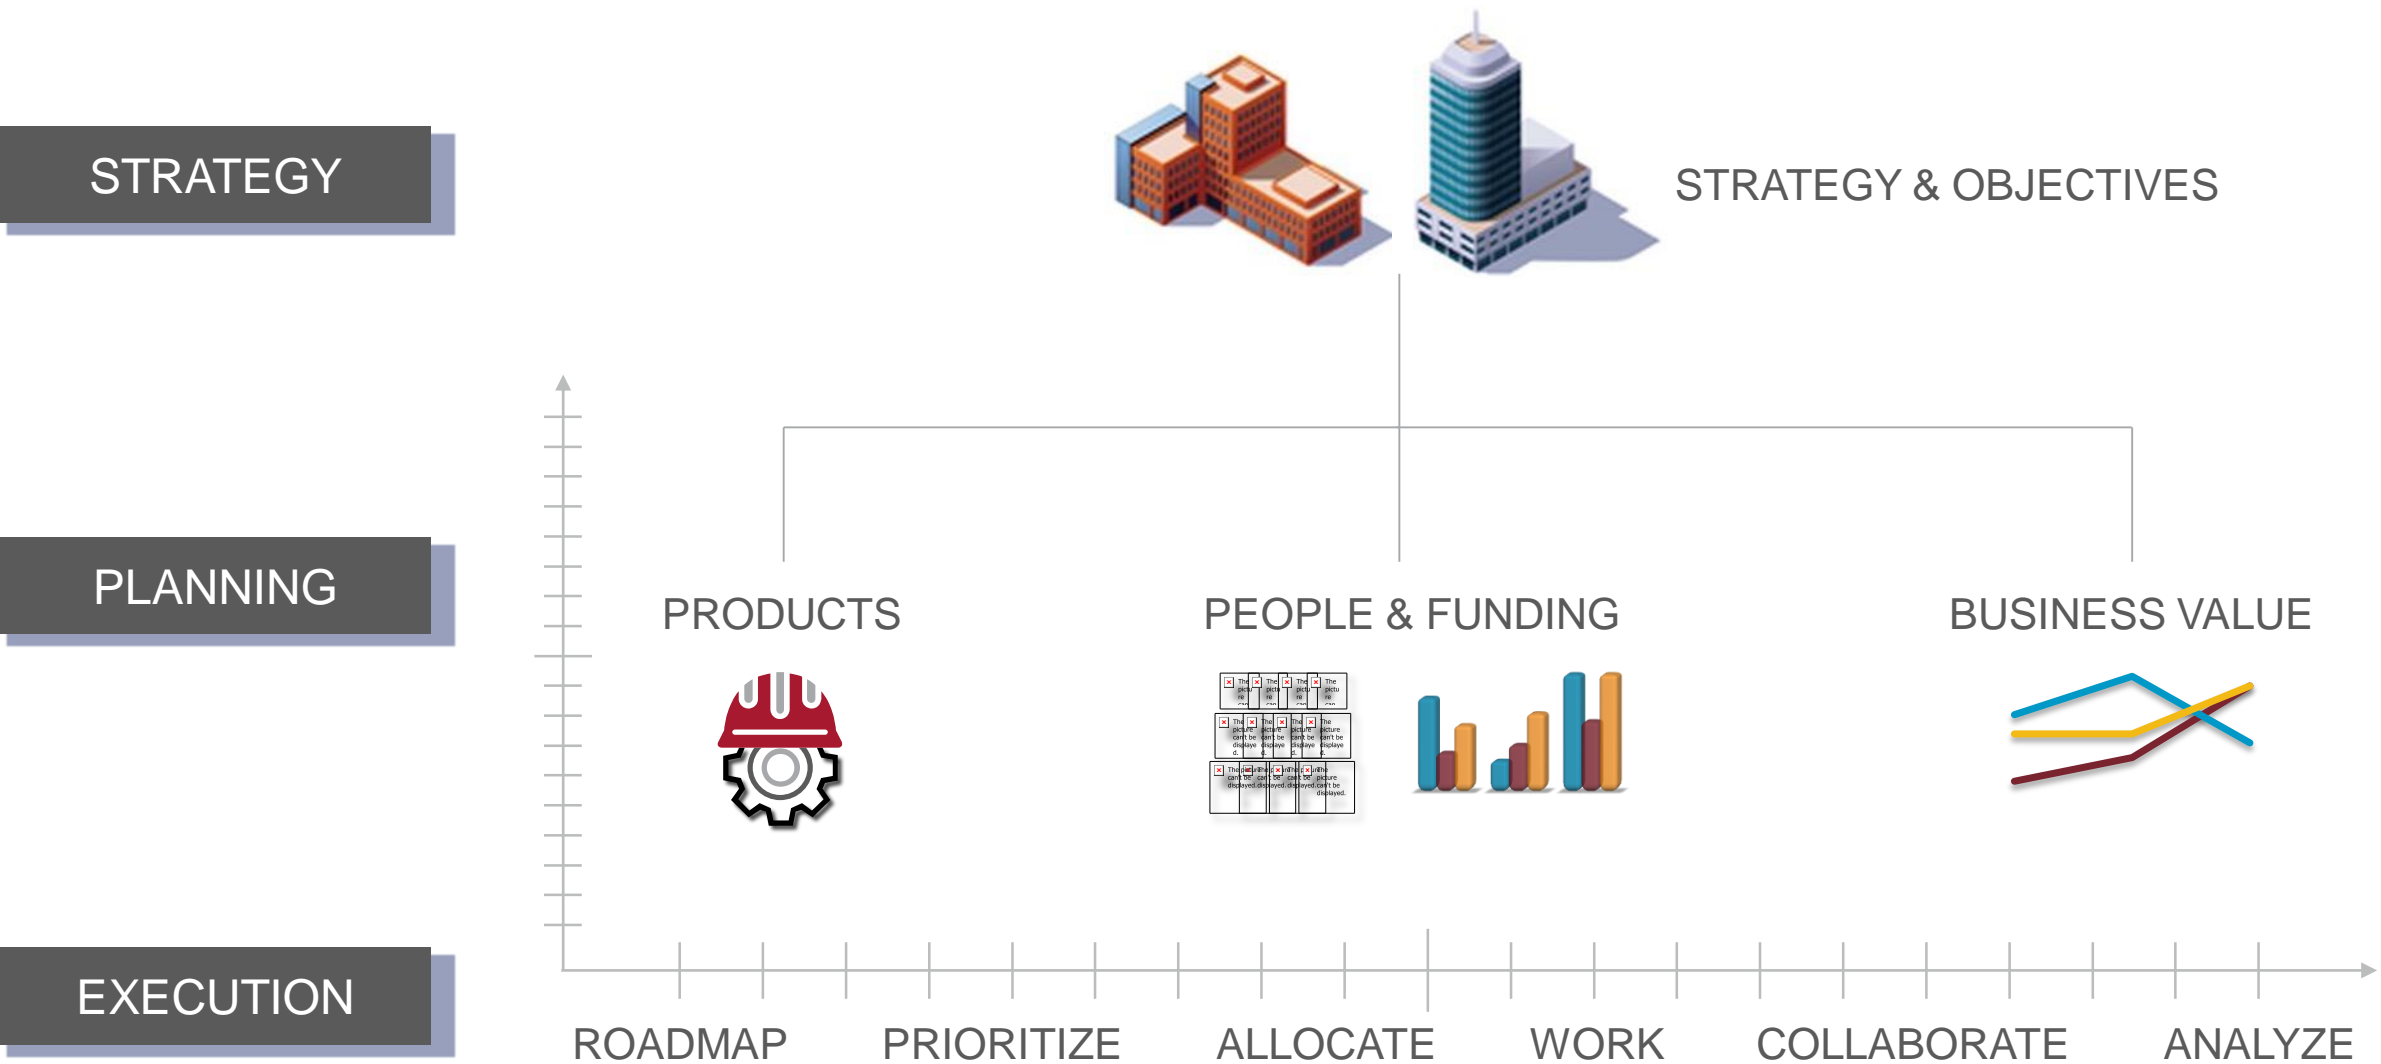

- Fund an outcome area for a period of time
- Changes require little or no rigid process
- Accountability is maintained through roadmap reviews
- Same resources are involved throughout work

Most companies will use both Projects and Products.
