API ACADEMY

ca technologies

The API Academy

- A small group of authors, speakers and researchers

- Provides *vendor-neutral* advice and opinion

- Focused on network based applications:
  - APIs
  - Microservice Architecture
  - Organizational & System Design

The API Academy Team

Ronnie Mitra
London, UK

Erik Wilde
Zurich, Switzerland

Mehdi Medjaoui
San Francisco, USA

Amy Vujanich
Vancouver, BC

Matt Mclarty
Vancouver, BC

Mike Amundsen
Kentucky, USA

Research & Writing

- Both team and individual projects

- Academic papers, industry standards, white papers

- Tech articles (InfoQ, The New Stack, DevX, Programmable Web etc..)

- Technical Books

Community and Events

- You'll find an Academy member at almost every API conference

- Three conference events curated by API Academy members:
  - RESTFest (restfest.org)
  - API Days (apidays.io)
  - WS-REST (ws-rest.org)

- The API Academy conference: API 360 – all Academy members on the same stage

- API Academy Podcast (available on iTunes and Soundcloud)

Software & Tool Research

- Tools, frameworks and experimental software

- Open sourced and available in github

- Examples:
  - Hypermedia application examples
  - API design tool (rapidodesigner.com)
  - API security game

Workshops and Bootcamps

- Brings the research and community to <u>you</u>

- Public workshop events around the world

- Two day private bootcamps on API and Microservices topics
  - Limited availability, usually reserved for CA customers
  - Contact your CA team for more information
