Chapter 1: Welcome

Welcome to CA Clarity PPM Service Pack 13.0.1.

This section contains the following topics:

[What This Document Covers](#) (see page 7)

[Training](#) (see page 7)

[International Support](#) (see page 8)

[Published Fixes](#) (see page 8)

[Known Issues](#) (see page 9)

[Find Product Roadmap Information](#) (see page 9)

[Supported Add-ins and Connectors](#) (see page 10)

What This Document Covers

This document provides information about enhanced features, documentation, and system requirements for CA Clarity PPM. Information about enhancements or changes in this service pack is available only in the release notes and not in the online help or the product documentation. This service pack provides a CA Technologies Bookshelf that you can access from the product. For more information about the bookshelf and product documentation, see [Documentation](#) (see page 13).

Note: At publication time, the product supports the operating systems and third-party software listed in this document. For assistance, contact CA Support at <http://ca.com/support>.

Training

For user training, CA Technologies offers the CA Productivity Accelerator (CA PA) solution. You can use this solution to create custom education materials and practice simulations and assessments. You can use the custom education materials in classroom training and online simulations. You can access the practice simulations and assessments from the Learn link on the User toolbar or from the Learning Management System (LMS). The CA PA provides standard content modules that you can upload into your CA PA editor and modify to reflect your product configuration. You can also integrate the processes and procedures that your organization uses into the CA PA solution.

CA Education offers these training solutions. To learn more about the training offerings and the CA PA, see <http://ca.com/education>.

International Support

An internationalized product is an English product that operates correctly on local language versions of the required operating system and required third-party products, and supports local language data for input and output. Internationalized products also support the ability to specify local language conventions for date, time, currency and number formats.

A translated product (sometimes referred to as a localized product) is an internationalized product that includes local language support for the user interface of the product, online help and other documentation, and local language default settings for date, time, currency, and number formats.

The product is fully localized and supports over 100 regional settings for date, time, and number formatting. The user interface is available in the following languages:

- | | |
|------------------------|-------------|
| ■ Brazilian Portuguese | ■ Italian |
| ■ Czech | ■ Japanese |
| ■ Danish | ■ Norwegian |
| ■ Dutch | ■ Polish |
| ■ English | ■ Russian |
| ■ Finnish | ■ Spanish |
| ■ French | ■ Swedish |
| ■ German | ■ Turkish |
| ■ Hungarian | |

Localized versions of some CA Clarity PPM online help files and product documentation are available within 90 days of the product general availability.

The most recent versions of localized product documentation are available at <http://ca.com/support>.

Published Fixes

We recommend that you review the certification matrix for the product and the Solutions and Patches that Technical Support provides at <http://ca.com/support>. You can review the solutions and patches and any prerequisite published fixes that are required for the product release.

Known Issues

For information about known issues, visit [CA Support Online](#) and search using one of the following keywords:

- *clarity13open*
- *clarity1301resolved*

Any related articles and known issues appear.

Find Product Roadmap Information

The CA Clarity PPM Product Roadmap outlines general product direction and provides information that can help you plan and manage your CA Clarity PPM implementation. For example, the Product Roadmap provides you with the following information:

- Planned features and functionality
- Removed features and functionality
- Internationalization and localization
- Product direction

To find the CA Clarity PPM Product Roadmap

1. Open a browser and navigate to <http://ca.com/support>.
The CA Support page appears.
2. Select CA Clarity Project & Portfolio Manager from the Product finder drop-down list.
The CA Clarity Project & Portfolio Manager page appears.
3. Scroll to the Product Status section, and click the CA Technologies Project & Portfolio Management Product Roadmap link.
If you are not already logged in, the CA Support login page appears.
4. Log in to CA Support.
The CA Clarity PPM Product Roadmap appears.

Chapter 2: Enhanced Features

This section contains the following topics:

[Exporting Reports](#) (see page 11)

Exporting Reports

In previous releases of the product, when a Clarity report is shared with another Clarity user, the user viewing the shared report could only export the report as a PDF. In this release, the user viewing the shared report can also export the report to Excel. Hover on the Export link to display the options - Export to PDF and Export to Excel. You can export all the pages to PDF or Excel.

Chapter 3: Documentation

This section contains the following topics:

[View the CA Technologies Bookshelf](#) (see page 13)

View the CA Technologies Bookshelf

The CA Technologies Bookshelf provides your product documentation set in Section 508-compliant HTML format, and a print version of each guide. The CA Technologies Bookshelf is installed automatically with the product and you can access it by clicking the Help link in the product.

You can download and extract the CA Technologies Bookshelf for your product (a ZIP file) from [CA Support Online](#).

To extract the ZIP file and view the CA Technologies Bookshelf

1. Use an archive product such as WinZip.
2. Extract the content to a local folder.
3. Double-click the Bookshelf.hta file in the Bookshelf folder.

Note: If you are viewing the bookshelf on your hard drive in an internet browser other than Microsoft Internet Explorer, you can simply open the Bookshelf.html file.

The CA Technologies Bookshelf opens, and you can use it to view and search the product documentation.

Where to Find Documentation

You can access the product documentation in the following locations:

- Click the Help link in the product.
- The Doc directory on the installation media. Double-click Bookshelf.html.
- Technical Support at <http://ca.com/support>.

How to View and Search PDFs

To view PDF files, download and install the Adobe Reader from the Adobe website if it is not already installed on your computer.

If you open a PDF file in Adobe Reader in the CA Technologies Bookshelf and search, the individual PDF file is searched and you see the individual instances of the search term.

Chapter 4: Compatibilities

This section contains the following topics:

[Compatibilities](#) (see page 15)

[Clients](#) (see page 15)

[Change History](#) (see page 18)

Compatibilities

This chapter contains operating environment information for this service pack, which is also available from the Compatibilities link on <http://support.ca.com>.

Many of the products listed in this chapter are not delivered with CA Clarity PPM, and you must purchase the product. For information about the software that is included with CA Clarity PPM, see Products Included with CA Clarity PPM. Refer to your licensing agreement for more information.
