- 45 minutes
- 06OPS20020

PREREQUISITES

- CA OPS/MVS® Event Management and Automation Components Release 13.5: Overview 100 (06OPS10020)

WHO SHOULD ATTEND

- Automation Engineers
- Systems Engineers
- System Operators

Course Overview

CA OPS/MVS® Event Management and Automation (CA OPS/MVS) gives organizations the ability to simplify mainframe management through user-defined automation policies to meet business objectives.

This course provides an introduction to OPSVIEW, a full-screen, menu-driven TSO user interface that provides ISPF panels for performing various z/OS system functions. In addition, z/OS system operations and automation programming staff use OPSVIEW to manage CA OPS/MVS.

This Course Will Show You How To:

Explain and understand, at a high level, the purpose and functionality of the following OPSVIEW menu options:

- PARMS
- OPSLOG
- Editors
- System Control (Sys Cntl)
- Control
- Support
- Command
- Utilities
