## Financial Services Solution Pack

### Configured Policies

Policy Group	Policy Name	Policy Description
<b>Regulatory Enforcement</b>	Gramm-Leach-Bliley	The Gramm-Leach-Bliley (GLB) Act gives consumers the right to limit some sharing of their information by financial institutions. This policy detects transmittal of customer data.
	HIPAA (including PHI)	This policy strictly enforces the US Health Insurance Portability and Accountability Act (HIPAA) by searching for data concerning prescription drugs, diseases, and treatments in conjunction with Protected Health Information (PHI). This policy may also be used for organizations which are not subject to HIPAA but want to control PHI data.
	Sarbanes-Oxley	The US Sarbanes-Oxley Act (SOX) imposes requirements on financial accounting including the preservation of data integrity and the ability to create an audit trail. This policy detects sensitive financial data.
	State Data Privacy	Many states in the US have adopted statutes mandating data protection and public disclosure of information security breaches in which confidential data of individuals is compromised. This policy detects these breaches of confidentiality.  ***This policy has been customized for the Financial Services Solution Pack to exclude social security numbers and credit card numbers that are already captured by the Gramm-Leach-Bliley Policy.***
<b>Confidential Data Protection</b>	Confidential Documents	This policy detects company-confidential documents at risk of exposure.  ***Recommend addition of company name and specific terms used. This policy has been customized for the Financial Services Solution Pack with an additional rule.***
	Encrypted Data	This policy detects the use of encryption by a variety of methods including S/MIME, PGP, GPG, and file password protection.
	Mergers and Acquisitions Agreements	This policy detects contracts and official documentation about upcoming merger and acquisition activity. It may be modified with company-specific code words to detect specific deals.  ***Recommend input of customized keywords***
	Resumes	This policy detects active job searches.
