

January 30, 2020

This notice is a second community notification (the first notification is located here:

<https://community.broadcom.com/enterprisesoftware/communities/community-home/digestviewer/viewthread?GroupId=2197&MessageKey=c20b304a-12cb-4d8f-bee3-6d73cddf9c8a&CommunityKey=f9d65308-ca9b-48b7-915c-7e9cb8fc3295&tab=digestviewer&ReturnUrl=%2fenterprisesoftware%2fcommunities%2fcommunity-home%2fdigestviewer%3fcommunitykey%3df9d65308-ca9b-48b7-915c-7e9cb8fc3295%26tab%3ddigestviewer> ) regarding Google's upcoming release a version of the Chrome browser with default behavior that will affect transactions executed by Layer7 SiteMinder.

This notice is intended to provide a reminder of the initial notice and to provide the specific link location of important information.

#### **Technical Guide:**

The TechDocs guide for SiteMinder versions 12.52, 12.6, 12.7, and 12.8 have an additional chapter titled: "How SiteMinder Avoids Impact of the Default Behavior of Google Chrome 80 for SameSite Cookie Attribute". Here is the link to that content in the 12.8 TechDocs:

<https://techdocs.broadcom.com/content/broadcom/techdocs/us/en/ca-enterprise-software/layer7-identity-and-access-management/single-sign-on/12-8/How-SiteMinder-Avoids-Impact-of-the-Default-Behavior-of-Google-Chrome-80-for-SameSite-Cookie-Attribute.html>

The identical content can also be found as the top entry on this page:

<https://techdocs.broadcom.com/us/product-content/recommended-reading/technical-document-index/ca-single-sign-on-hotfix-cumulative-release-index.html#SMWAM>

#### **Solution Patches:**

Solution patches that are published can be found here:

<https://techdocs.broadcom.com/us/product-content/recommended-reading/technical-document-index/ca-single-sign-on-hotfix-cumulative-release-index.html#SMWAM>

Once you are on this page if you search for "samesite", you will locate all solution patches.

#### **As noted on the previous notification:**

If you have questions about the nature and timing of this change in Chrome, please contact Google.

Note: If your use of Chrome is only on your own internal network, you may be able to apply a policy so that Chrome 80 will behave as a pre-Chrome 80 browser. See this link:

<https://www.chromium.org/administrators/policy-list-3/cookie-legacy-samesite-policies>

If you have questions about how the Chrome change will affect SiteMinder and how to access and deploy the solution patches, please contact Broadcom Support:
