

General Availability Announcement

11/27/2018

To: CA Rapid App Security Customers
From: The CA Technologies CA Rapid App Security Product Team
Subject: General Availability Announcement for CA Rapid App Security

On behalf of CA Technologies, we appreciate your business and the opportunity to provide you with high-quality, innovative software and services. As part of our ongoing commitment to customer success, we regularly release updated versions of our products. Today, we are pleased to announce that CA Rapid App Security r3.0 is now available.

New features for **CA Rapid App Security r3.0** include:

- JavaScript SDK – Developers can leverage the same ease of use for integrating authentication and risk into their web applications as they could before with native applications
- Xamarin support – *For Android only*, the Xamarin developer framework is now supported
- Risk analysis can be controlled by policy and enabled for a specific protected API. The overall risk flow has been simplified in the SDK as well.
- Pre- and Post-operation customization entry points have been added for AuthID, AuthOTP, Risk Analysis and User endpoints
- Scheduled tasks to clean up risk state in the RAS database are automatically installed.
- Support for iOS 12 (XCode 10) and Android Pie are now available.
- New Issuance API's for AuthID, AuthOTP are available in the SDK.
- SDK now supports multiple AuthID's, using configuration settings.

For more information about this release, including any updates made after this announcement, refer to the release notes section of the [CA Rapid App Security documentation](#).

The End of Service date for this release is currently scheduled for **November 2021**. Once the End of Service date is reached, CA may offer customers the opportunity to purchase Extended Support for an additional 12 months. Extended Support will be discontinued at the end of the 12-month period. Specific terms of Extended Support contracts are available from CA Support.

You can download your copy of CA Rapid App Security r3.0 online at <https://support.ca.com/> where you can also utilize CA's case management system. To install your product, follow the installation procedures for your product at [DocOps.ca.com](http://www.ca.com/us/customer-care.aspx).
