

CA 7® Workload Automation: REST API Installation and Configuration 200

EDUCATION COURSE DESCRIPTION

SUPPORTED PRODUCT RELEASE(S)

CA 7® Workload Automation
REST API
Version 12.1.0.1

COURSE TYPE, LENGTH, & CODE

- Web-Based Training (WBT)
- 45 Minutes
- 06SEV20130

Course Overview

The CA 7 REST API is an application programming interface to a number of CA 7 services. In accordance with widely accepted REST (REpresentational State Transfer) architectural guidelines, each service handles request and response parameters in either JSON or XML format. Services are requested using standard HTTP operations like GET, POST, PUT, and DELETE.

This course shows you how to install and configure the CA 7 REST API.

This Course Will Show You How To:

- Prepare Mainframe applications for CA 7 REST API installation
- Install the CA 7 REST API Server
- Set up the CA 7 Event Manager for use with the CA 7 REST API
- Configure Datacom Server for use with the CA 7 REST API
- Perform CA 7 REST API Administration functions
