

Why Does CA PPM Matter in the Application Economy

- Control who you sell to
 - CA PPM is the "license" to "business, awarded by software"
- If developers drive the Application Economy, CA PPM is how you plan where to go

Why Does CA PPM Matter in the Application Economy

Easiest way to say it:

CA PPM is the "Business" in "Business, Rewritten by Software"

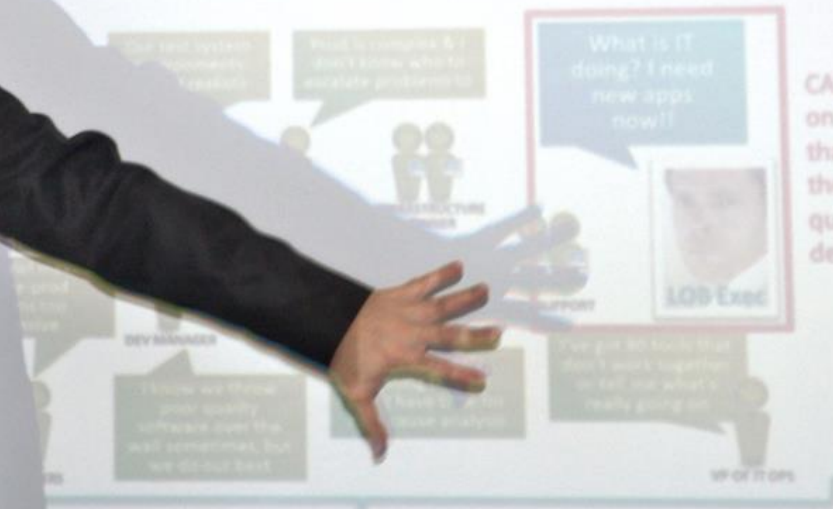

- If DevOps drives the Application Economy, CA PPM is how you plan where to go

Why Does CA PPM Matter in the Application Economy

Another way

Technology doesn't deliver value until the business believes it does

CA PPM is the only CA product that gives this guy the answer(s) & demand(s)
