

# General Availability Announcement

March 2020

To: CA Brightside Customers  
From: The CA Technologies Brightside Offering Team  
Subject: General Availability Announcement for CA Brightside 3.0

On behalf of CA Technologies, a Broadcom company, we appreciate your business and the opportunity to provide you with high-quality, innovative software and services. As part of our ongoing commitment to customer success, we regularly release updated versions of our products and offerings. Today, we are pleased to announce that CA Brightside 3.0 is now available.

This release is supported in accordance with the guidelines, and parameters of our support program, documented in the [“CA Brightside Enterprise Support Policy for Open Source Zowe and Eclipse Che4z Components”](#) guide.

The CA Brightside 3.0 offering includes packaging and installation enhancements, Broadcom product plugins and Broadcom innovations. Review the [CA Brightside 3.0 documentation](#) for the comprehensive list.

We encourage you to visit the CA Brightside information page at Broadcom [Support](#).

You can download your copy of CA Brightside 3.0 online at Broadcom [Support](#) where you can also utilize the case management system. To install the product components, follow the installation procedures at <https://techdocs.broadcom.com>. If you have any questions or require assistance, contact CA Customer Care online at [CA Customer Care](#). To connect to, learn from and share with other customers, join and participate in the CA Brightside User Community at <https://community.broadcom.com/home>. For available education courses, visit [Education and Learning](#).

For information on End of Service, please review the End of Service section within the [CA Brightside Enterprise Support Policy for Open Source Zowe and Eclipse Che4z Components](#).

We are dedicated to ensuring that your use of CA Brightside is successful, and we thank you for your continued support. If you have questions regarding this software offering, please visit Broadcom [Support](#).
