Course Overview

CA Top Secret® provides comprehensive security for the z/OS, z/VM, and z/VSE environments—including z/OS UNIX and Linux for zSeries. Built-in, comprehensive administrative and reporting tools, along with detailed event logging capabilities, simplify the management of users and their access rights.

This course will show you how to use the Static Data Table (SDT) and define Calendar and Time records.

This course is part of a group of Web-Based Training courses that contains the same information as the Instructor-Led Training (06TSS20071).

This Course Will Show You How To:

- Describe the Static Data Table (SDT) record

- Define Calendar and Time records
