# General Availability Announcement

March 2022

To: Mainframe Operational Intelligence Customers
From: The Mainframe Operational Intelligence Product Team
Subject: General Availability Announcement for Mainframe Operational Intelligence 2.1

CA Technologies, a Broadcom Company, appreciates your business and the opportunity to provide you with high-quality, innovative software and services. As part of our ongoing commitment to customer success, we regularly release updated versions of our products. Today, we are pleased to announce that Mainframe Operational Intelligence (MOI) 2.1 is now available.

New features for Mainframe Operational Intelligence 2.1 include:

Bring Your Own Operating System (BYO-OS)
- Simplified installation on your Redhat 7.9; MOI is now decoupled from prior integrated OS

Machine Learning (ML) Optimizations
- Enhanced Alert Predictions with tighter tracking of probability bands
- Further reduced alert noise by aligning Severity 1 and Severity 2 ML logic

User Interface Improvements
- Aligned visuals on Green Highways and the Time Slider
- New interface for: Notifications, Email Rules, and Security (in Appliance Controller)
- Multiple Alert List Views and Columns Selector: Enable persona focus
- Faster response on Metric and Analyze Selection

General Updates
- More Metrics: IDMS and SYSVIEW
- Updated internal services for their enhancements and security updates
- Enhanced reliability of message ingestion
- New Dashboards visualizations (gauge charts and more colors)

You can download your copy of Mainframe Operational Intelligence 2.1 online here, where you can also utilize the case management system. To install your product, follow the installation procedures at the Tech Doc site. If you have any questions or require assistance, contact support.

Should you need any assistance in understanding these new features, or implementing this latest release, our CA Services team can help. Please contact your local account representative for more information. To connect, learn, and share with other customers, join and participate in our Mainframe Operational intelligence Community.

For a list of Mainframe Education courses recommended by role, please visit the Mainframe Education Course Catalog and select the desired product. We update courses based on functional impact as well as high-demand; therefore, courses created from previous releases may apply to the current release.

Please review our End of Service / End of Life Policy within the [Broadcom Software Maintenance Policy Handbook](#).

Thank you again for your business.
