

CA MIM™ Resource Sharing for z/VM Plus

Product sheet addendum—external

CA MIM Resource Sharing for z/VM Plus includes the following interfaces, options and capabilities in the base product license cost.

Message Sharing	Routes messages and commands among up to 128 geographically remote systems.
Tape Sharing	Offers granular tape device selection and exclusion capabilities, and is the only tape device sharing solution that allows sharing between IBM® z/OS®, IBM z/VM® and Linux®.
