ca technologies

Identity Analytics

Empowering the business to achieve operational excellence with real-time analytics

Operational Excellence Console for Managers

- Centralized dashboard providing a unique view of all identity lifecycle processes
- Allow managers to analyze processes and drill down into potential problems and remediate them
- Improves efficiency and productivity of the enterprise
- SLA statistics give project sponsors business justification for project ROI

Context Based Recommendations

- Recommendations and suggestions are calculated and displayed in real-time during access requests
- Suggestions are context-based, i.e. Based on users' attributes, current access and requested access

Simplified & Fast Deployment with Virtual Appliance

Full deployment of CA Identity Suite reduced from Days to Minutes!

NEW

Capabilities

- No installer. No scripts. No training.
- Pre-integrated, high availability environment in a couple of clicks
- Pre-defined recommendations for production deployments
- Up and running in minutes!

Benefits

- Lower **License** Costs: CA provided OS, application server, directory
- Lower **Services** Costs: No installer and simplified patches/upgrades
- Lower **DevOps** Costs: Built-in centralized monitoring and Logging
