

General Availability Announcement

January 11th, 2019

To: CA Directory Customers
From: The CA Technologies CA Directory Product Team
Subject: General Availability Announcement for CA Directory r14.1

On behalf of CA Technologies, we appreciate your business and the opportunity to provide you with high-quality, innovative software and services. As part of our ongoing commitment to customer success, we regularly release updated versions of our products. Today, we are pleased to announce that CA Directory r14.1 is now available.

New features for CA Directory r14.1 include:

- Attribute encryption – the product now allows for configuration to define sensitive attributes that will be encrypted on disk during the persistence of the directory data
- Hostname validation – the product has added Subject Alternate Name validation during the SSL connection establishment between DSA's, comparing it to an expected value defined in the configuration

We have officially deprecated the use of the 'min-auth' configuration setting. We have also stopped shipping the separate DxAgent installation package, which has been embedded into the installers directly.

The End of Service date for this release (14.1) will be January 2022.

We also encourage you to visit the CA Directory product information page on the CA Support portal at <https://support.ca.com/> and [DocOps.ca.com](https://docops.ca.com)

You can download your copy of CA Directory r14.1 online at <https://support.ca.com/> where you can also utilize CA's case management system. To install your product, follow the installation procedures for your product at [DocOps.ca.com](https://docops.ca.com). If you have any questions or require assistance, contact CA Customer Care online at <http://www.ca.com/us/customer-care.aspx>,

Should you need any assistance in understanding these new features, or implementing this latest release, our CA Services experts can help. For more information about CA Services and how you can leverage our expertise, please visit www.ca.com/services. To connect, learn, and share with other customers, join and participate in our CA Directory CA Community at <https://communities.ca.com/>.

For a list of Education courses recommended by role, please visit the [CA Learning Paths](#) and select the desired product. We update courses based on functional impact as well as high-demand; therefore, courses created from previous releases may apply to the current release.

Please review the CA End of Service/End of Life Policy within the Working with CA Support guide available at <https://support.ca.com> by navigating to the Support Policies link.

Thank you again for your business.
