New Functionality in CAMM

- Support for deploying both 'CA eHealth' and 'CA Performance Management' Device Packs using new CAMM Web.
- Support for Deploying CA Performance Management 2.3.4 engine, certification and views from CAMM Web.
- Support for Deploying CA eHealth certification from CAMM Web.
- Script to migrate the device packs from the older versions of CA Infrastructure Management 2.x to latest CA Performance Management 2.3.4.

Fixes in CAMM

- RejectedExecutionException observed in Delivery Service which causes DS to stop sending files to Presenter.
- Fixes in the JMS Plugin for CAAlcatel5620SAM device pack for configurable parameters for JMS SSL Keystore Path and Keystore Password.
- Installation of CAMM when performed with Hostname caused MC – LC communication failure.
- Device pack File List consists Null Values which causes data to be discarded for the particular poll.

Fixes in CAMM for Performance Management

- Device pack File List consists Null Values which causes data to be discarded for that particular poll.

Note: Release 2.2.6 is a complete release containing all features and fixes in the 2.2 release stream. It can be installed fresh or as an upgrade to a previous GA release. For further information on the available defect fixes, please see the *Release Notes*.

Where to obtain CA Mediation Manager and future releases

You can electronically download r2.2.6 from the CA Support downloads under the Download Center area at http://www.ca.com/support.
Note: You will only see r2.2.6 listed if you purchased the product and are entitled to CA Mediation Manager.

Please review the *Readme* and *Release Notes* completely before installing, including any installation or upgrade considerations.

CA Mediation Manager r2.2.6 and future maintenance releases are recommended for CA installations to help customers take advantage of the latest updates, new functionality and critical defect fixes.

If you have any questions regarding the support schedule, please contact your local CA Technologies Account Manager, or CA Technologies Customer Care at +1-800-225-5224 in North America or see http://www.ca.com/phone for the local number in your country.

Your success is very important to us, and we look forward to continuing our successful partnership with you.
