As of 14 May 2013

Source: Gartner (May 2013)

Gartner positions CA Technologies as a “Strong Positive”

“Is viewed as a provider of strategic products, services or solutions;”

- Customers: Continue with planned investments.
- Potential customers: Consider this vendor a strong choice for strategic investments.

* Gartner Inc., MarketScope for Project and Portfolio Management Software Applications, Daniel B. Stang, Robert A. Handler, May, 2013

Gartner does not endorse any vendor, product or service depicted in its research publications, and does not advise technology users to select only those vendors with the highest ratings. Gartner research publications consist of the opinions of Gartner's research organization and should not be construed as statements of fact. Gartner disclaims all warranties, expressed or implied, with respect to this research, including any warranties of merchantability or fitness for a particular purpose. - NUEVA Hoja de Tiempo/Aprobaciones (para Móviles)
- Mejoras de usabilidad
- Mejorar en OBS
 - Opción hacer OBS Obligatoria (Mas Votada)
- Mejoras en Rendimiento

Retos en la gestión de Portfolios Actual

Debilidades/ Descripción (Clientes)	13.1	13.2
Experiencia de Usuario. Esta característica no es sencilla de utilizar.		
Rendimiento. La vista actual es lenta cuando trabajamos con muchas inversiones.		
Planificación periodo Fiscal. Out-of-the-box se puede planificar basado en calendario solamente; Las vistas por periodo fiscal no están disponibles..		
What-if / Interactive Views. No damos a los usuarios un forma sencilla para explorar los cambios en presupuestos, ranking, planificación o capacidad .		
Capitalización de Inversiones : Sin características out-of-the box para seguimiento de capital and operating expenses; no se puede planificar a nivel de portfolio.		
Planificación de la capacidad basada períodos. Los usuarios no pueden establecer metas por período de tiempo para los costes, beneficios o recursos.		
Línea base. Nosotros no aprobamos los planes de la cartera de referencia para futuras consultas. No es compatible con el análisis histórico.		

Portfolios: Realidad, Planes, Versiones, Baselines

Portfolio

"Reality"

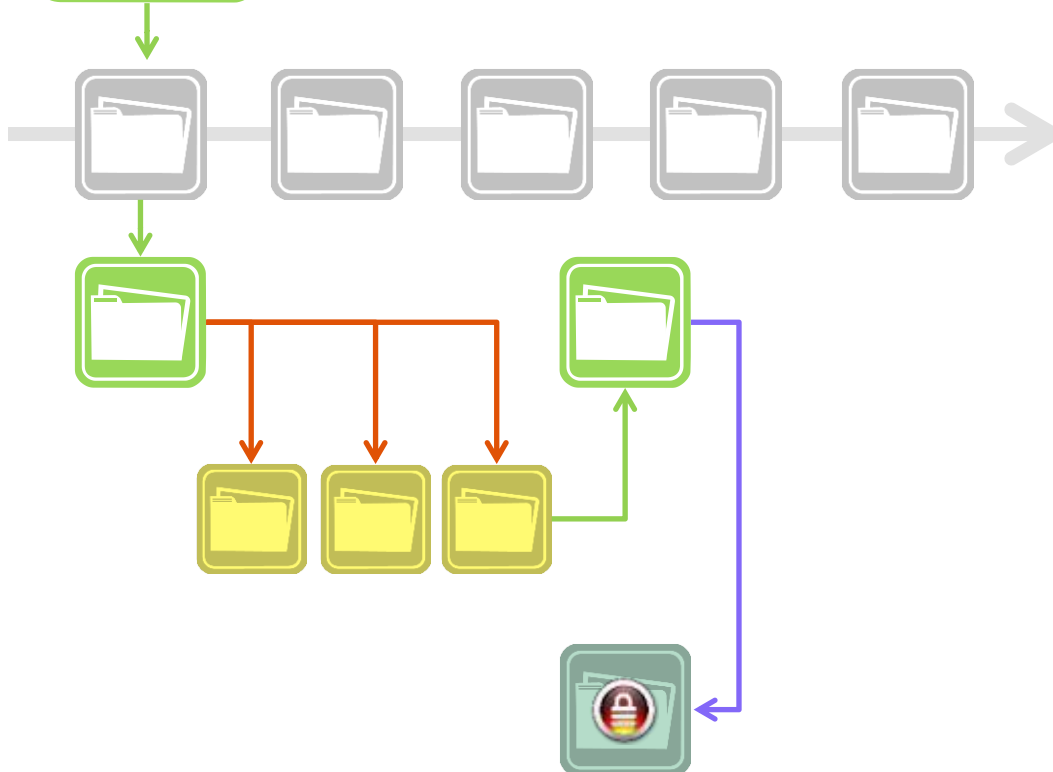

Plans

Versions

Plan of Record

Portfolio: una colección de Inversiones
Ejemplo: Todos "los proyectos activos" en el departamento de TI

La Vista estándar de Portfolios es una instantánea de la "Realidad" que se actualiza basa en las preferencias de sincronización especificada por el responsable. La sincronización actualiza los datos de la cartera para reflejar la realidad actual.

Los planes y las versiones se actualizan en contra de "la realidad". (Hay reglas que rigen la forma en qué pasaría si "las inversiones se actualizan")

Establecer el Plan de Registro y utilizarlo para comparar con la realidad o la copia en los nuevos planes

Portfolio: Business Technologies - Waterlines

Nuevas Hojas de Tiempo/Aprobaciones para Móviles

Teclas Rápidas

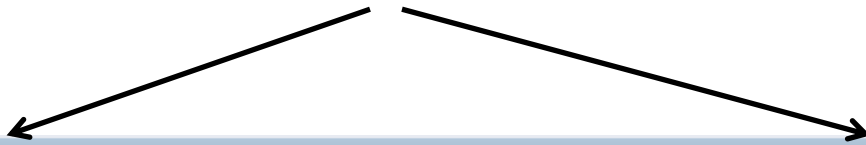

Descripción de la Tecla Rápida	Tecla Rápida
Mover el cursor al final de la línea en una lista o tabla	CTRL + Right Arrow Key (When in a TSV, this control moves to the end of the TSV row)
Mueve el cursor al comienzo de la línea en una lista o tabla.	CTRL + Left Arrow Key (When in a TSV, this control moves to the first period of the TSV row)
Pagina una página abajo en una lista o tabla.	CTRL + ALT + Page Up Key, Page Down Key
Mueve el cursor al principio o final de tabla o lista	CTRL + Up/Down Arrow Key
Selecciona una celda en TSV	<ul style="list-style-type: none">• SHIFT + CTRL+ RIGHT ARROW (To select full row)• SHIFT + CTRL+ DOWN ARROW (To Select full column)• SHIFT + RIGHT/LEFT ARROW (to select a single cell to the right/left)• SHIFT + DOWN/UP ARROW (to select a single row down/up)
Copia/Pega celda en TSV	CTRL + C (to copy) CLRT + V (to paste)

Copiar-y-Pegar dentro de TSV

Operation	Result
Copia de uno a muchos	Copia el valor de una celda y pega en muchas celda que seleccione
UI Treatment when cells are copied	
Dimensional Paste	Copiar  Select  Paste 
Limpiar valores usando la tecla DELETE	Select  delete Key Resultado 
Cortar y pegar usando Control-x	Select  Control-x  Select  Paste 
Undo usando Control-z	Desacer la ultima operacion de cortar o pegar

Preservar valores cuando TSV “Scrolling”

Los valores que se han cambiado se conservan cuando hacemos scrolling a través de los diferentes periodos de tiempo.
