SUPPORTED PRODUCT RELEASES

CA Vantage™ Storage Resource Manager
Version 14.0

COURSE TYPE, LENGTH, & CODE

- Delivery Method: WBT
- Duration: 30 minutes
- 06VSR20020

PREREQUISITES

- Understanding of basic storage management concepts
- Familiarity with z/OS

WHO SHOULD ATTEND

- System Administrators
- System Programmers
- Operators
- IT Managers

Course Overview

CA Vantage™ Storage Resource Manager (CA Vantage SRM) centrally manages complex storage environments to help ensure that critical storage assets are fully optimized, data is protected, and application outages are eliminated. Proactive, policy-based exception management automates routine manual functions to increase personnel productivity and improve service levels.

This course prepares you to create and use dashboards within the Mainframe Team Center - Management interface to CA Vantage SRM.

This Course Will Show You How To:

- Navigate using the User Menu, Navigation Pane, and Dashboards
- Explain the differences between public and private hosts
- Create a private host
- Understand factory dashboards versus user-defined public or private dashboards
- Create and modify a dashboard
- Export a dashboard chart
- Import and export dashboard definitions
- Customize object data collection and presentation
- Evaluate, view, and perform actions on an object
