5 QUESTIONS

Business Update

Market leadership

Consistently leading year over year

- ✓ Leader in IDC 2017 Marketscape for Agile PPM (2017 – inaugural year)
- ✓ Leader in the Gartner Magic Quadrant for Integrated IT Portfolio Analysis applications (2016, 2015, 2014).
- ✓ Leader in the Gartner PPM Worldwide Magic Quadrant (2017, 2016, 2015 and similar MQ reports in previous years)
- ✓ Leader in OVUM Decision Matrix: Agile Project Management 2016-2017
- ✓ Leader in IDC MarketScape for Worldwide Enterprise IT PPM Vendor Assessment (2016)

“Consider CA if you are looking for best-of-breed agile project, program and portfolio management.”

- 2017 Gartner

Best Project Portfolio Management Vendor

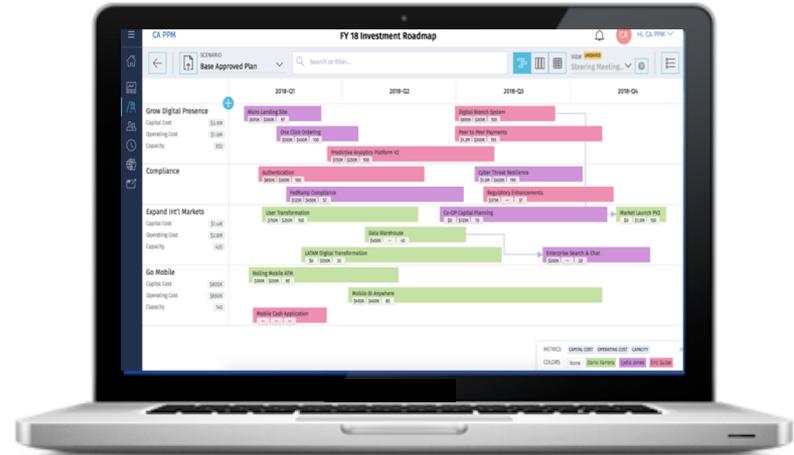

-IT Central Station Peer Reviews (Unbiased reviews from the tech community)

Consumer technology impacts the workplace

Transforming the work experience

New ways to visualize and plan the work

- For the first time, the technology people have at home is better than in the workplace.
- People will download their own tools if the enterprise solution doesn't meet their expectations.

A shared solution across the enterprise

The days of mandating use of a tool are gone. We need to provide solutions that people **want to use** and **gain value**.

The nature of work is changing

Keeping pace with user expectations

- 1 More social:** Social is the new workflow. How do people organize a dinner - social is how people work together today.
- 2 Team centric:** Solutions that enable teams to work together and eliminate meetings and conference calls win out.
- 3 Friendly and simple:** No one wants a training class. People need to adopt tools with limited or no training.

The solution to ensure confidence.

Introducing 15.4: configurable, powerful & social

Unique ability to enable “business light” and “PM power” in one solution.

The collage features several screenshots from the CA PPM software interface:

- Top Left:** A dashboard view for 'Eclipse Enhancements' showing navigation tabs (DETAILS, TASKS, LINKS, FINANCIALS, CONVERSATIONS, DOCUMENTS, STATUS) and a sidebar with sections like 'GENERAL', 'PROJECT REPORTS AND DASHBOARDS', and 'RISKS, ISSUE, CHANGE REQUESTS'.
- Top Center:** A 'Financial Plan Name' view showing a table with columns for 'PLANNED', 'ACTUAL', 'BUDGET', and 'VARIANCE' across different project phases and resources.
- Top Right:** A 'NEW TASK' view showing a workflow from 'Adding to Pool' to 'Planned', 'In Progress', 'Verify', and 'Accepted'.
- Bottom Left:** A 'CONVERSATIONS' view showing a chat interface with a message from 'Paul' asking for business cases.
- Bottom Center:** A Gantt chart titled 'Project: B2B Enhancements - Gantt' showing task dependencies and resource assignments for tasks like 'Initiation Phase', 'Planning Phase', 'Design Phase', and 'Construction Phase'.
- Bottom Right:** A 'PTM Annual Plan' view showing a detailed Gantt chart with resource bars and a summary of 'ENTERED HOURS BY RESOURCE MANAGER' and 'ENTERED HOURS BY PRIMARY ROLE'.

Product Update

Shift in Focus

Support Top Down Strategy Planning While
Maintaining Bottom Up Run & Operate

New paradigms require a new understanding

- ☑ Why is traditional investment planning so painful?
- ☑ What has everyone missed in demand management?
- ☑ What is the hidden trap in prioritization?
- ☑ Why are we the answer?

Pressures. The **business** wants everything now:

- Everything is a number one priority
- How do you keep yourself from over committing?
- How does everyone understand the big picture?

What our customers told us...

THE PAIN OF TRADITIONAL INVESTMENT PLANNING

“Bottom up” approach for defining projects, ideas, budgets and team allocations requires too much detail for planning to begin.

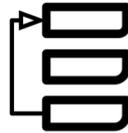

**Where details are known, use them.
Where they are not, create a high level item and work out the details later.**

WHAT'S MISSING FROM DEMAND MANAGEMENT?

Does innovation come from the help desk engineer or the business leader?

Innovation comes from engagement with executives responsible for steering the business.

WHY DOES PRIORITIZATION FAIL?

“When we ask an executive to prioritize, they state everything is a number one priority. And, the expectation is that it all will be delivered—because it’s number one.”

Executives must understand the whole picture in order to rank work.

WHY ARE WE THE ANSWER?

We're bringing roadmaps to investment planning and a visual tool that enables stakeholders to gain common consensus.

Easily sort, pivot and view investment information as needed to gain investment insights.

Strategy & Roadmap

Plan the Initiatives that map to your Business Outcomes

Business Case Demand Management

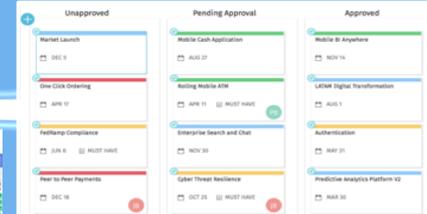

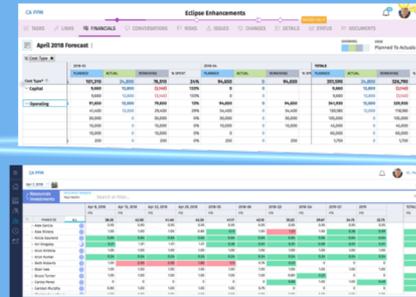

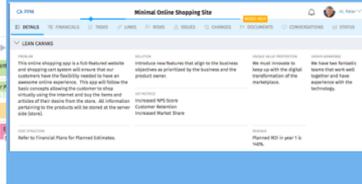

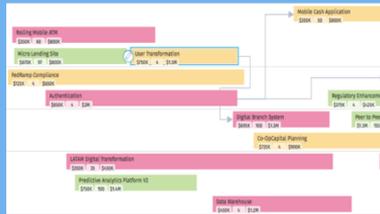

Request funding for initiatives ready to launch near term

Financial and Headcount Planning

- Ensure you have the right people
- Funding forecasts

Execution

- Task Management
- Risk / Issue / Change Mgt
- Document Mgt
- Collaboration
- Scheduling & Tracking

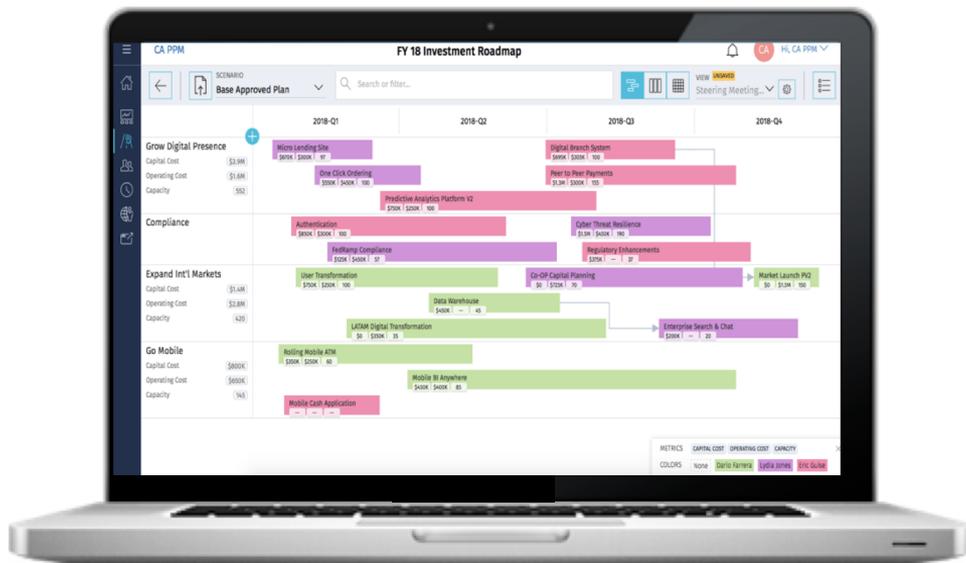

Full Cost Management

Budgeting & Forecast

Resource & Staffing

Roadmaps enable top-down planning

Create roadmaps to enable top-down investment planning that communicate strategy and inform better decisions.

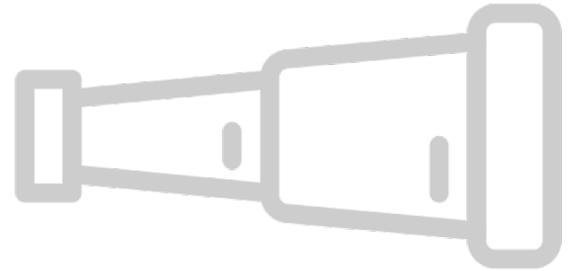

Roadmaps, when appropriately tailored for audience and purpose, can be **invaluable tools for building consensus and support for future business capabilities and outcomes.**

“These roadmaps must have the right granularity and planning horizon **and must connect strategy with implementation to ensure that desired outcomes are achieved.**” ¹

Gartner Report: [“Create Roadmaps That support Decision Making and Communicates Strategy Effectively”](#) James McGovern. July 26, 2017. ID: G00336402

Future Plans

Under Development

Roadmap constraint-based planning

Sort items based on any combination of columns (ROI, Total Cost, etc.)

Items are colorized based on the constraints they consume

Standard Group By options

- Group by Exec Sponsor
- Manually move items in and out of plan

VARIANCE	(15,000)

Operating Cost

TARGET	2,500,000
IN PLAN	2,050,300
VARIANCE	449,700

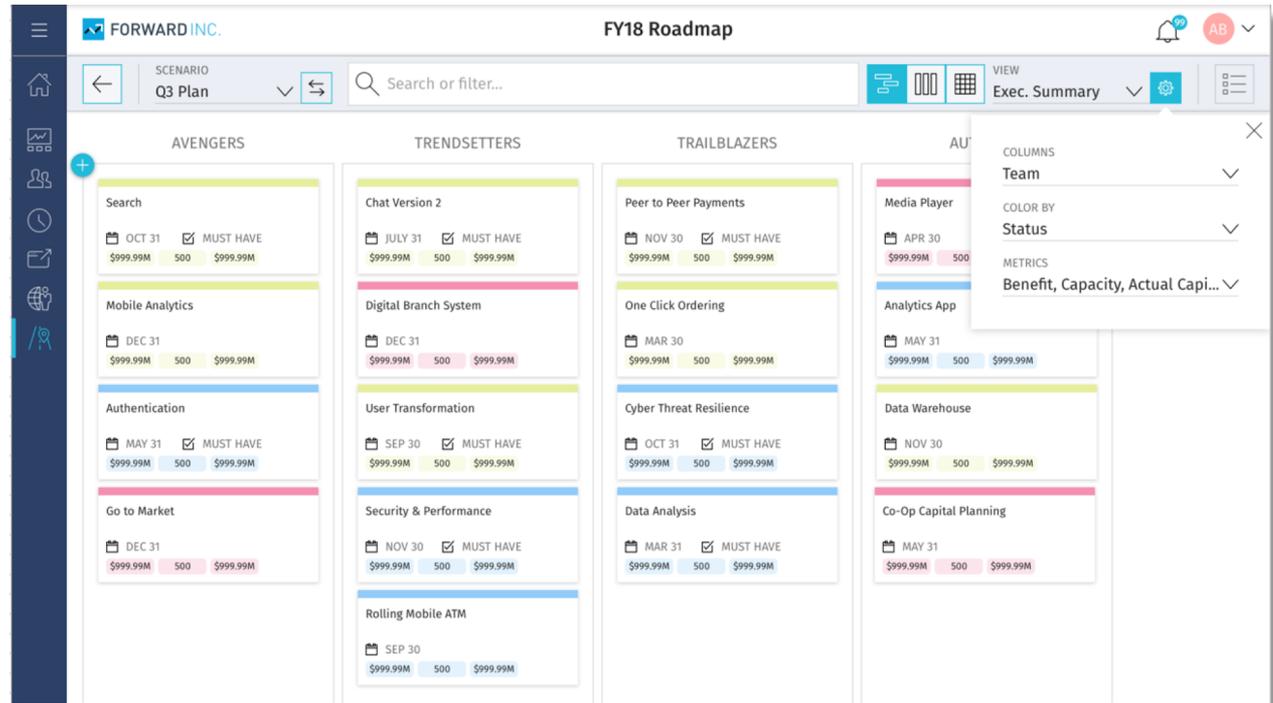

Plan

Apply multiple constraints in an iterative manner

Roadmap board view metrics

☑ Independently control which metrics are displayed across the Roadmap Timeline and Board views

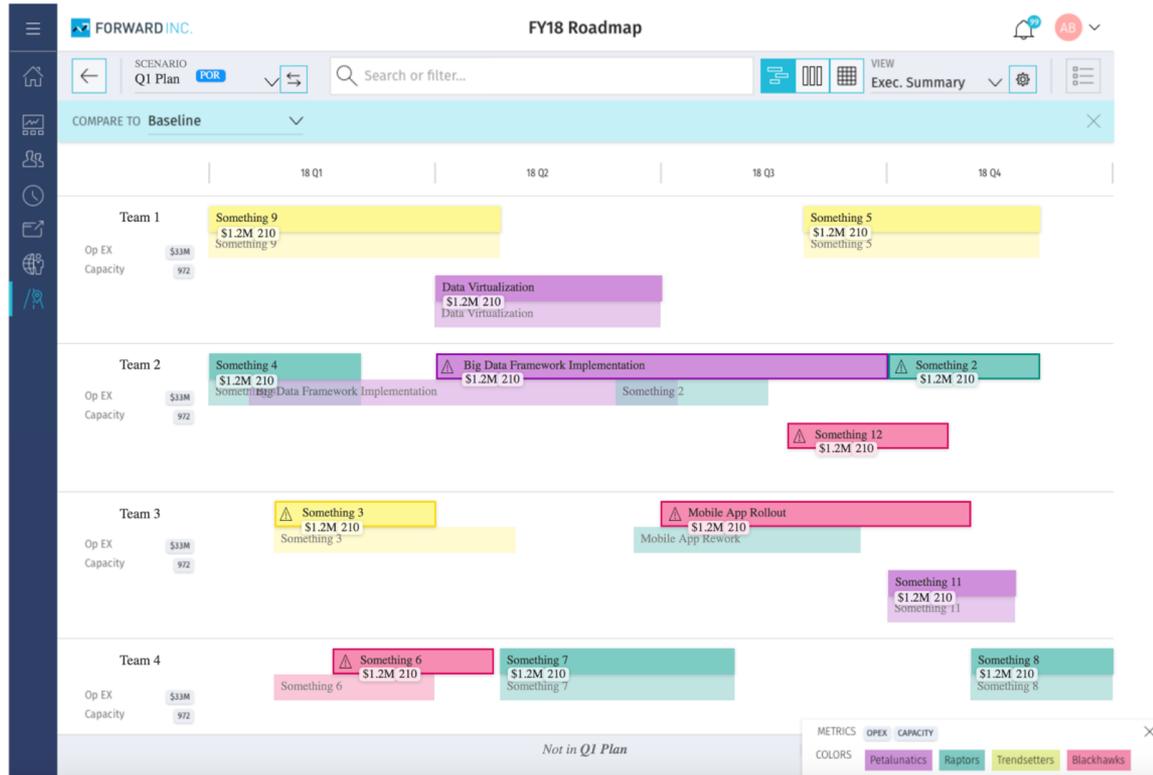

Control

Present the right information at the right time.

Roadmap scenario comparisons

- ✓ Compare plans / Scenarios
- ✓ Baseline (original annual plan) to current
- ✓ Visually determine changes since we all agreed on a plan

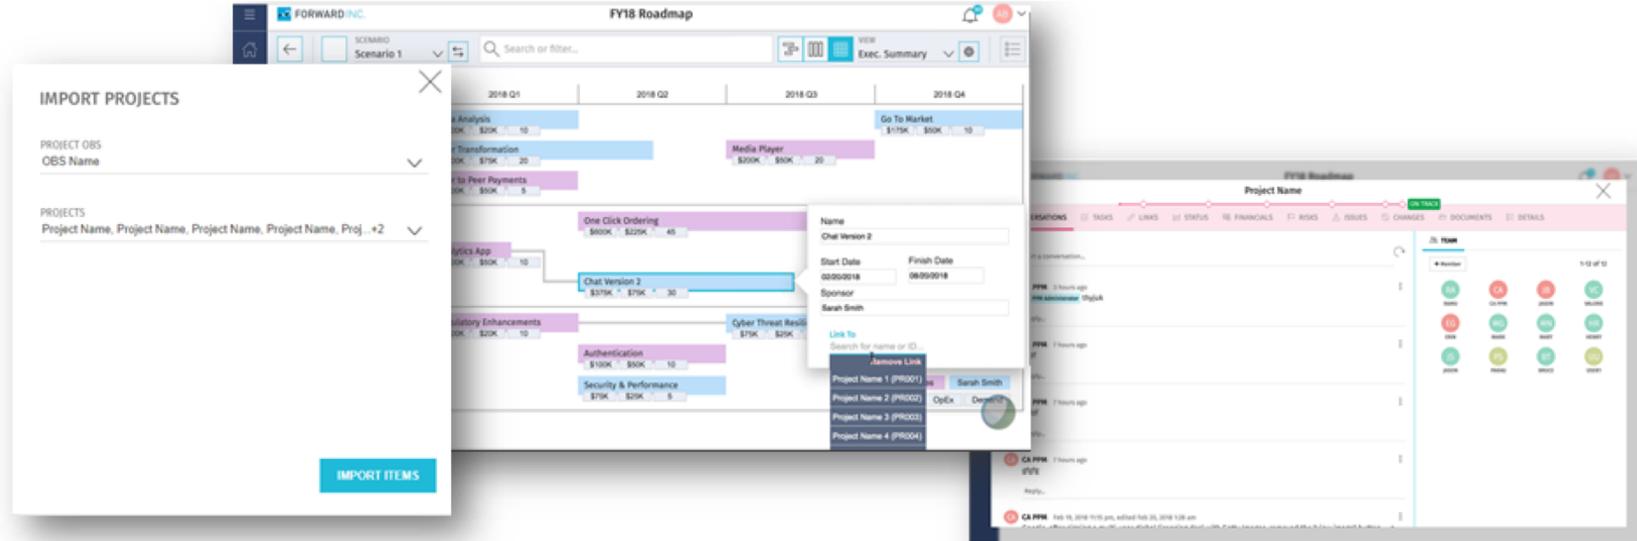

Power

Compare scenarios with the help of visualization

Roadmap linking to PPM projects

- ✓ Link roadmap items to projects
- ✓ Drill into a PPM project
- ✓ Available from grid, board and timeline views

Power

Determine which PPM projects are linked to the roadmap

Roadmap syncing to PPM projects

Blueprinting – relabel project fields

- ✓ Introduce in projects first
- ✓ Apply to new investment types next

The screenshot displays the 'MARKETING BLUEPRINT - EDIT MODE' interface. At the top, there are buttons for 'EXIT', 'REVERT', and 'PUBLISH'. A red circle with the number '1' highlights the 'PUBLISH' button. Below this, there is a section for 'AVAILABLE FIELDS' with a search bar and an 'ADD SECTION' button. The main area shows a 'SECTION' configuration table with fields like 'BUDGETED COST', 'BUSINESS ALIGNMENT', 'COST VARIANCE', 'PROJECT MANAGER', 'START DATE', 'FINISH DATE', and 'OPEN FOR TIME ENTRY'. A blue arrow points from the 'PUBLISH' button in the top section to the 'PUBLISH' button in the bottom section. Below the main configuration area, there is a table with the following columns: 'In Use', 'Field', 'ID', 'Section Lab', 'API ID', 'Description', 'Blueprint La', 'Field Default', 'Blueprint D', 'Field Type', 'Database Ty', 'Database Cc', 'Required', 'Read Only', 'Data Wareh', 'Virtual', and 'Active'. A red circle with the number '2' highlights the 'Active' column.
