

## Q&A Session for DevTest Community Webcast

Date: Tuesday, January 23, 2018

---

-tim dallmann - 11:26 AM

Q: Is there any way to port the services created here into the full SV?

-Melanie Giuliani - 11:29 AM

A: there's currently no direct integration, but this may be coming in the future! As of now, you can use MAR file that gets created in your full version of SV-

-Koustubh Warty - 11:29 AM

A: @Tim - that is on the roadmap.-

---

-Ankush Sharma - 11:28 AM

Q: I have question related to Virtual service environment - How VSE is coupled in Community edition .

-Koustubh Warty - 11:32 AM

A: @Ankush - there are no services to run - no registry, there is no VSE. Everything is embedded into the Community Edition.-

---

-Leo S - 11:30 AM

Q: is there a linux version?

-Melanie Giuliani - 11:31 AM

A: we have a MAC and Windows version, but not a Linux version as of right now. The full system requirements can be found on the documentation page:
