General Availability Announcement

December 2019

To: CA Endevor® SCM Integrations for Enterprise DevOps Customers
From: The CA Technologies CA Endevor SCM Integrations for Enterprise DevOps Product Team
Subject: General Availability Announcement for CA Endevor SCM Integrations for Enterprise DevOps 18.1 0001

On behalf of CA Technologies, a Broadcom Company, we appreciate your business and the opportunity to provide you with high-quality, innovative software and services. As part of our ongoing commitment to customer success, we regularly release updated versions of our products. Today, we are pleased to announce that CA Endevor SCM Integrations for Enterprise DevOps 18.1 0001 is now available.

This release adds Atlassian Bitbucket support via the new CA Endevor Bridge for Git architecture, deprecating the original Bitbucket plugin. With the new architecture, CA will be better positioned to bring new features and fixes to all supported enterprise Git repositories.

We also encourage you to visit the CA Endevor Software Change Manager product information page at CA Support and Tech Docs.

You can download your copy of CA Endevor SCM Integrations for Enterprise DevOps 18.1 0001 online at CA Support where you can also utilize CA's case management system. To install your product, follow the installation procedures for your product at Tech Docs. If you have any questions or require assistance, contact support.

Should you need any assistance in understanding these new features, or implementing this latest release, our implementation services partners can help. Please contact your CA account representative for more information on how they can help. To connect, learn, and share with other customers, join and participate in our CA Endevor CA Community at https://community.broadcom.com/mainframesoftware/communities/communityhomeblogs?CommunityKey=592eb6c9-73f7-460f-9aa9-e5194cdafcd2.

For a list of Mainframe Education courses recommended by role, please visit the CA Learning Paths and select the desired product. We update courses based on functional impact as well as high-demand; therefore, courses created from previous releases may apply to the current release.

Please review the CA End of Service / End of Life Policy within the "Working with CA Support" guide available at support by navigating to the CA Support Policy and Terms link.

Thank you again for your business.
