To: CA AuthMinder™ Certificate Management formerly known as RegFort Customers
From: The CA Technologies Security Product Team
Subject: End of Life Announcement for *CA AuthMinder™ Certificate Management formerly known as RegFort*

CA Technologies is continually working to improve our software and services to best meet the needs of our customers. In order to focus our development efforts and to help our customer base achieve their strategic business initiatives, we are investing our resources in new technology and software and will be dropping support on CA AuthMinder™ Certificate Management, formerly known as RegFort (RegFort), In accordance with our CA Support Policy and Terms (https://support.ca.com), please consider this letter your written notification of this End of Life. This means RegFort will no longer be enhanced and that maintenance and technical support will be discontinued beginning November 7, 2015. However, CA Technologies will honor any existing contractual requirements to sustain support on this product that may exist between you and CA Technologies.

The RegFort product, also branded as CA AuthMinder Certificate Management, is mainly used to manage and issue digital IDs from multiple certificate authority vendors to smart cards, hardware tokens and software tokens. This is a broad application area and we find that the requirements vary too greatly from application to application. Thus, going forward, should you find it necessary, as an alternative to RegFort product enhancements our CA Services Team will work with you to arrive at an appropriate SOW to provide any enhancements/changes needed outside of the product support. These services would be delivered on standard CA terms.

If you have any questions regarding the support schedule, please contact Security CA Support at CA Support Online (https://support.ca.com/), your local CA Technologies Account Manager, Customer Success Manager or CA Customer Care online at http://www.ca.com/us/customer-care.aspx where you can submit an online request using the Customer Care web form: https://communities.ca.com/web/guest/customercare. You can also call CA Customer Care at +1-800-225-5224 in North America or see http://www.ca.com/phone for the local number in your country.

Your success is very important to us, and we look forward to continuing our successful partnership with you.
