“Digital Celerity’s Clarity PPM expert services professional practice has earned my enthusiastic recommendation” Marina Kernes, Director of the EPMO at Warner Bros

About Digital Celerity, LLC

Founded in 2003, Digital Celerity celebrates its 10th anniversary providing thought leadership and expert services in four interrelated pillars: Project Portfolio Management (PPM); IT Service Management (ITSM); IT Governance & Project Management Offices (PMO's); and Enterprise Agile Adoption. Specific services include: deep dive assessments, consulting and advising, training and mentoring, system installation and integration, implementation and organizational adoption, upgrades, and support. Digital Celerity is headquartered in San Francisco, CA, with a staff of over fifty prominent industry experts delighting a continually growing list of clients in retail, insurance, finance, healthcare, new product development, and many more industries. Digital Celerity is a Premier Partner and leading reseller of CA Technologies Clarity PPM, Agile, and Service Management solutions.

Visit us at www.digitalcelerity.com, and www.facebook.com/DigitalCelerity to learn how we can help you to achieve the full benefit realization of your CA Technologies solution investment.

Agenda

- The presentation will answer the following questions:
 - How Agile has proven success and is increasingly being adopted?
 - What is Scaled Agile and what are the benefits of scaling agile?
 - How does Agile scale to a Program?
 - How does Agile Scale to a Portfolio?
 - How can Clarity support Scaling Agile?

Agile Adoption is Rapidly Expanding

Organizations practicing agile in 2013

88%
Practicing
Agile

Up from 83% in 2012 and 80% in 2011

Waterfall vs. Agile Success Rates

- *"If you haven't already, a priority for 2014 is to start your agile transition. Rethink how you need to deliver software and begin making the necessary adjustments to your application development and delivery practices." – Gartner, [2013]*

Source: The CHAOS Manifesto, The Standish Group, 2012.

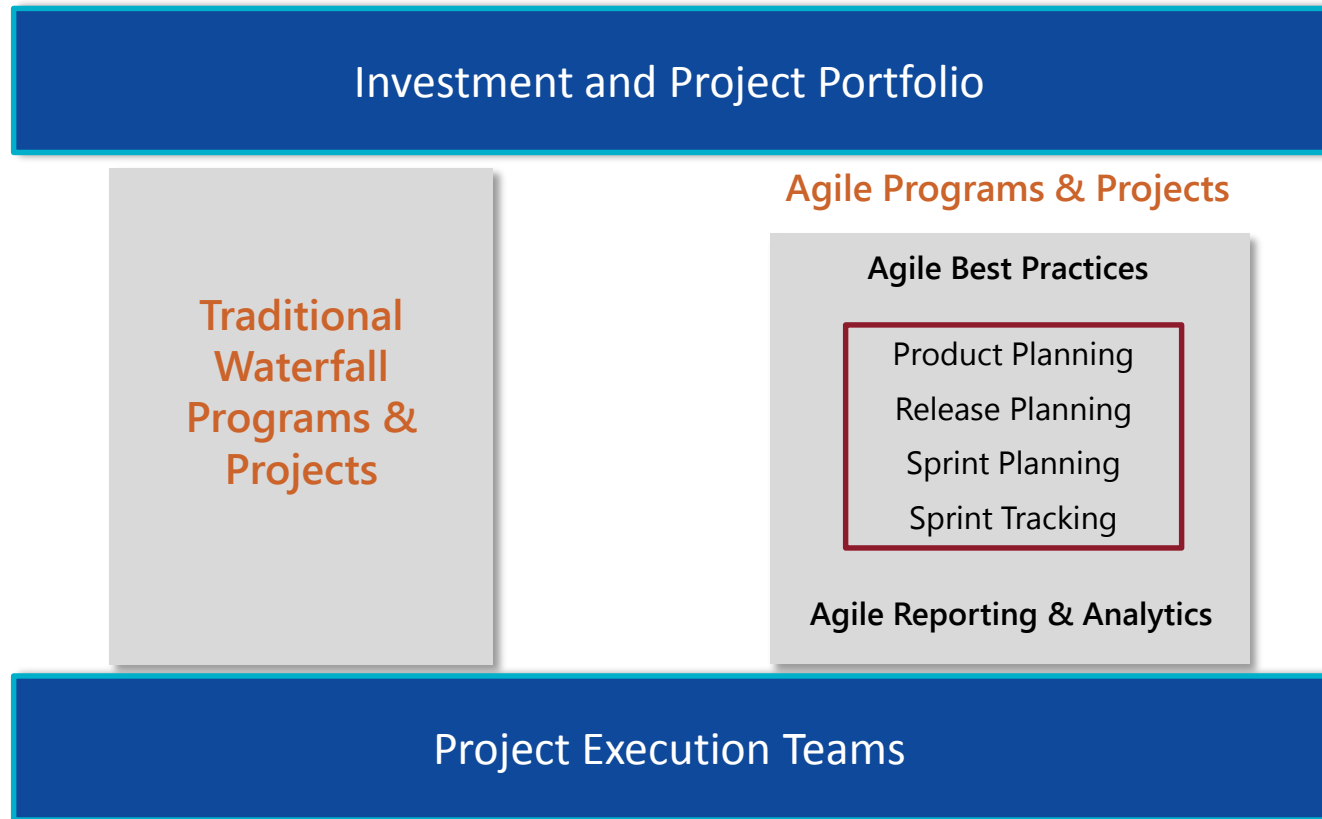

Top four reasons for adopting Agile

1. Accelerate innovation & time to market
2. Manage changing priorities
3. Better align IT and business objectives
4. Increase productivity

An integration solution

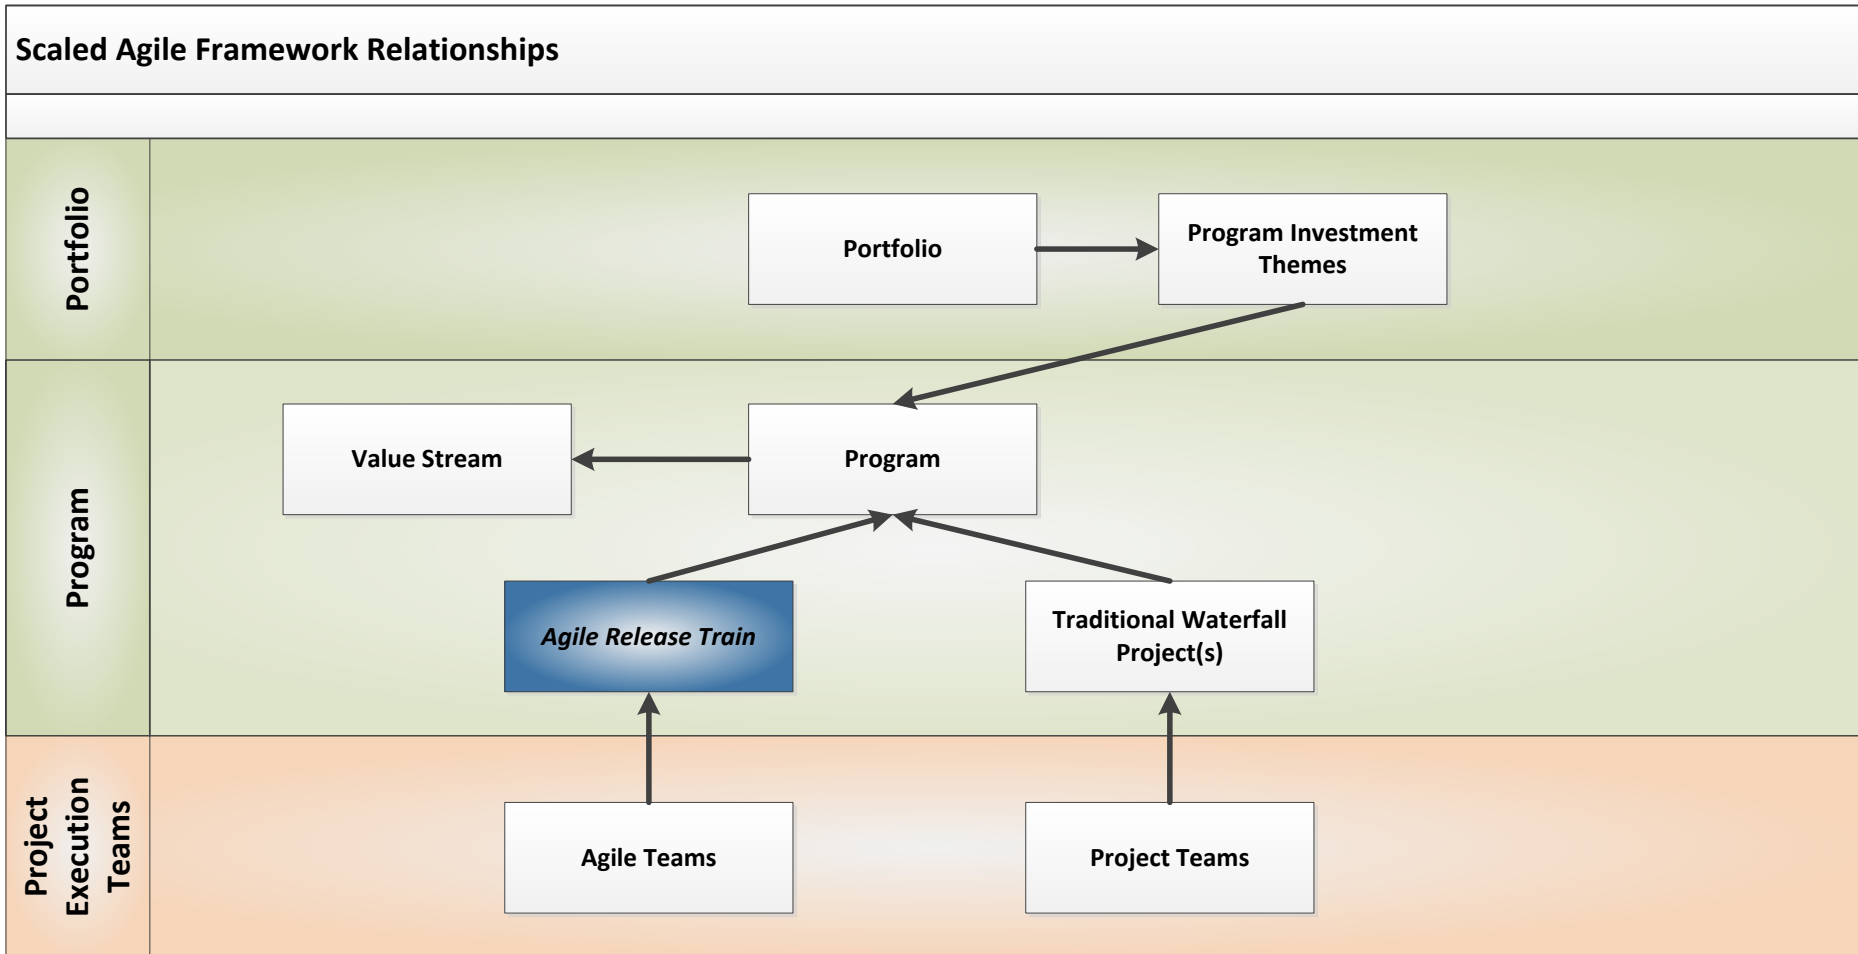

Scaling Agile for Success

- Many companies need to innovate quickly but coordinate across multiple investment themes
- Scaled Agile (SAFe) was developed to synchronize alignment, collaboration, and delivery across multiple portfolios

Scaled Agile Relationships

Scale Agile to the Program

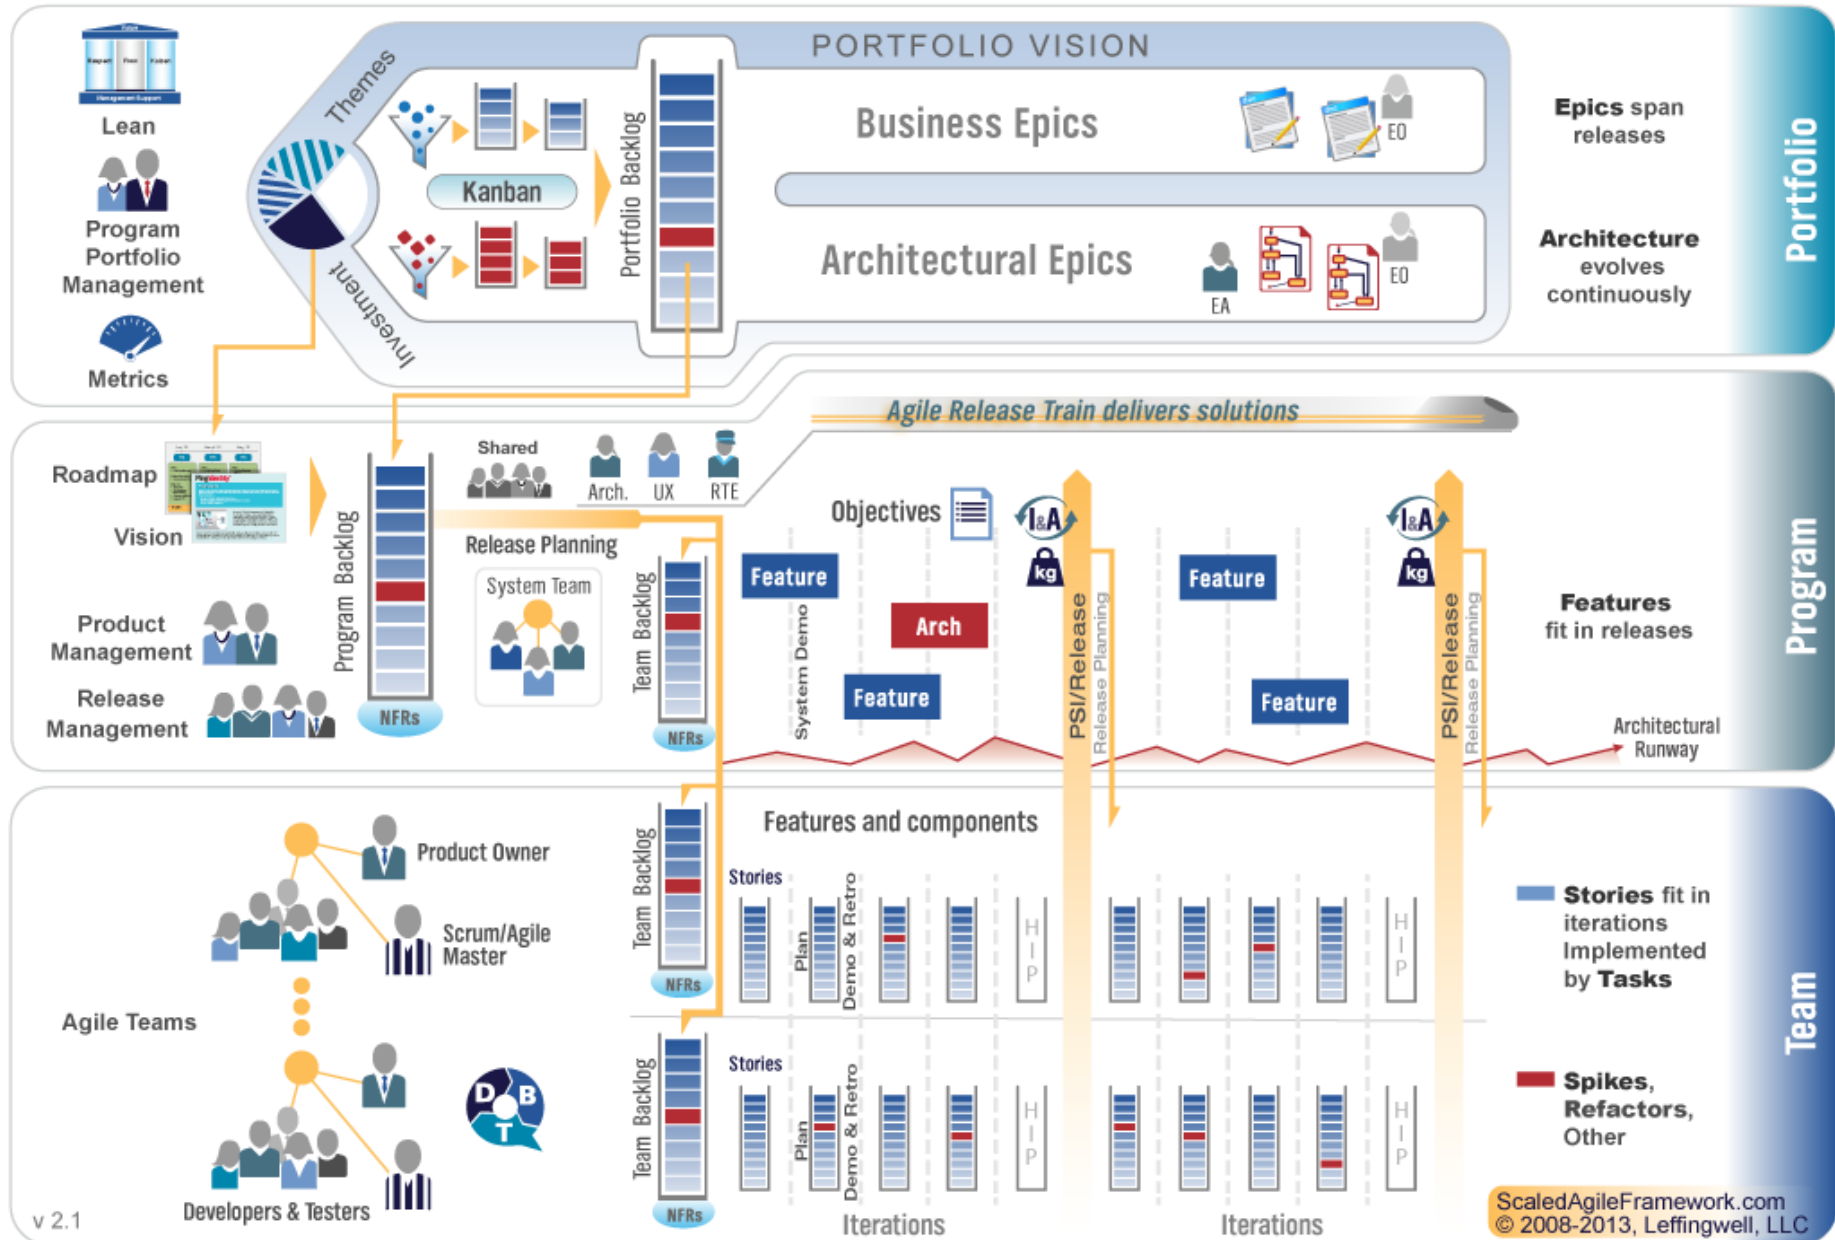

- Scales the benefits of Agile to the Program level
- Delivers fully tested, system ready solutions every 12 weeks
- Aligned to a common mission
- Organized around value streams
- Agile Release Train delivers solutions on an even cadence

Scale Agile to the Portfolio

- Portfolio vision guides investments and enterprise architecture needed to support customer and business needs
- Use Objective metrics to measure decide on the highest value investments
- View all investment themes together to make dynamic decisions

Scaled Agile Framework™ Big Picture

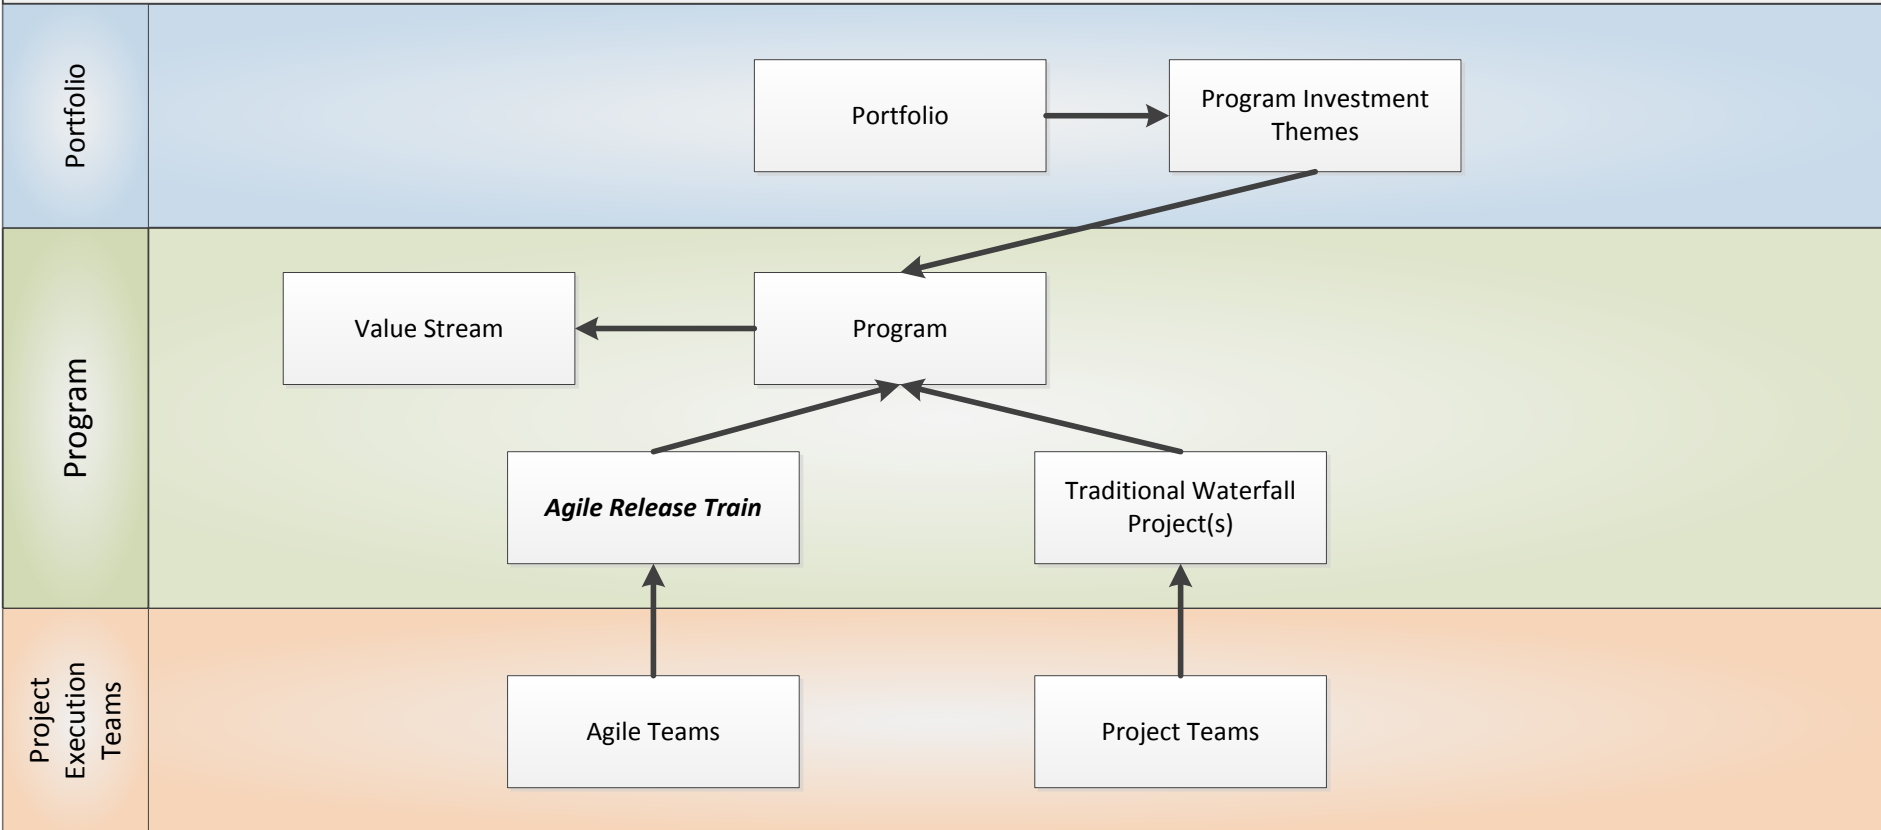

CA Clarity™ for SAFe Demo

Scaled Agile Relationships

Scaled Agile Framework Relationships

Scale the Portfolio with Clarity PPM

- How to decide on the highest value investments and view all investments together to make dynamic decisions
- Clarity Waterlines helps facilitate the Portfolio decision making process

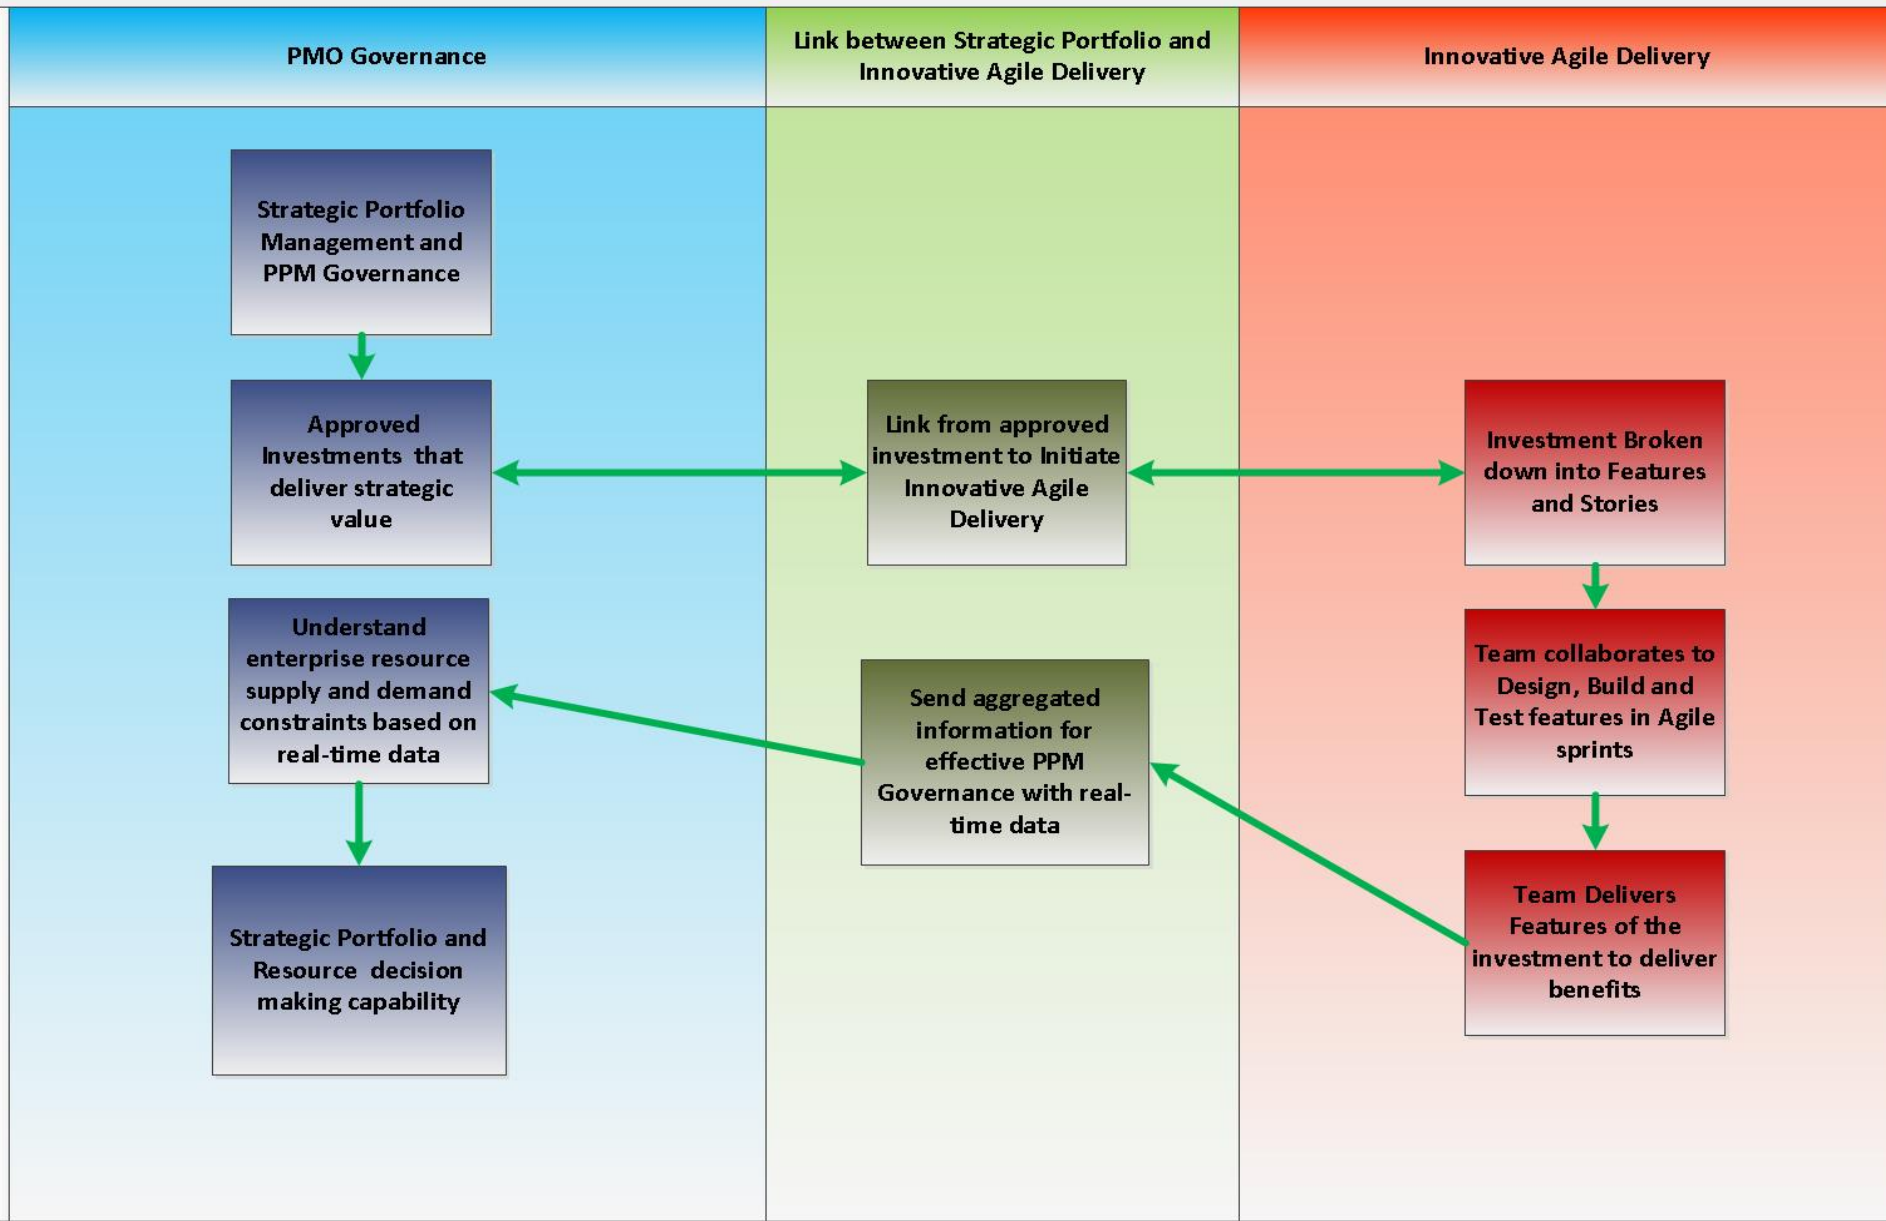

Scale the Program with Clarity PPM

- Facilitates Agile Release Train Decision making and planning by enabling Feature analysis in Clarity Portfolio Waterfall
- Facilitates the consistent planning cadence and benefit of easy collaboration, alignment, synchronization, and evaluation in real time

Integrating the Project Execution Team

Enabling Effective Integrated Portfolio Governance and Agile Project Management
