(1) Available from version 1.4.5 of Unijob

(2) Prerequisite is HP11iv2 (11.23) if no Manager is activated.

Prerequisite is HP 11iv3 (11.31) is any Manager is activated.

(3) Available from version 6.2.41 of DU. (4) Available from version 6.3.41 of DU. (5) Available from version 6.3.44 of DU

(6) Available from version 6.4.41 of DU

(7) Starting version 6.7.41

(8) Starting version 6.8.21

(9) Only 6.9.01

#### Notes:

Customers can subscribe to an extended support for operating systems under Software Vendors extended support, granted the product compatibility appears in the matrix.

Price and conditions of this extended support must be reviewed with their Sales Representative. For more information, please check "extended support conditions"

#### Specific Note for Linux Support:

AUTOMIC validates Workload Automation solutions on Red Hat, Suse and Oracle Linux (RHCK) environments in order to benefit from the software vendor support.

RedHat Linux, Suse Linux and Oracle Linux (RHCK) distributions constitute the Linux Validated Environment for AUTOMIC.

In case a customer encounters a problem on a Workload Automation solution on a Linux distribution other than the Linux Validated Environment for AUTOMIC (Red Hat Linux and Suse Linux):

-AUTOMIC analyzes customer requests without considering your Linux distribution specificities and will provide the existing documented solutions applying to the Linux Validated Environment.

-If the existing documented solution does not solve the request, AUTOMIC will not be able to deliver an advanced analysis for the problems occurring on an Operating System other than the Linux Validated Environment for AUTOMIC. Therefore AUTOMIC will ask the customer to reproduce the problem on RedHat Linux or Suse Linux, at customer choice, to keep on working on the request.

-Once the problem is reproduced on Red Hat Linux or Suse Linux by the customer, the problem will be taken in charge by AUTOMIC

# UniViewer & WS - OS & RDBMS

Notes:

- (1) Only with SUN/Oracle\_JRE
- (2) UVMs 4.x, 6.x (external DB) and Reporter 4.x, 6.x on Windows are supported with MS SQL Server (strongly recommended) and Oracle. UVMs 4.x, 6.x (external DB) and Reporter 4.x, 6.x on Linux are only supported with Oracle Database.
- (3) Dollar Universe Explorer Compatibility.
- (4) Repairs or re-enters node(s) 6201 or superior. Dollar Universe production nodes (non reference node) in version and update: 6201 or superior.
- (5) Available from version 6.3.21 of UVC (5) Available from version 6.5.21 (7) Java 1.6 not supported for version 6.6.25 and higher (8) Available from version 6.8.41 (9) Only 6.9.01 (10) Starting 6.9.61

Specific Note for Linux Support:

AUTOMIC validates Workload Automation solutions on Red Hat and Suse environments in order to benefitate from the software vendor support.

RedHat Linux and Suse Linux distributions constitute the Linux Validated Environment for AUTOMIC. A customer encounters a problem on a Workload Automation solution on a Linux distribution other than the Linux Validated Environment for AUTOMIC (Red Hat Linux and Suse Linux):

- AUTOMIC analyzes customer requests without considering your Linux distribution specificities and will provide the existing documented solutions applying to the Linux Validated Environment.
- AUTOMIC (Red Hat Linux and Suse Linux):
- if the existing documented solution does not solve the request, AUTOMIC will not be able to deliver an advanced analysis for the problem occurring on an Operating System other than the Linux Validated Environment for AUTOMIC. Therefore AUTOMIC will be able to solve the problem on the Linux Validated Environment for AUTOMIC.
- If the customer has a problem on a Linux distribution other than the Linux Validated Environment for AUTOMIC, AUTOMIC will not be able to deliver an advanced analysis for the request.

-Once the problem is reproduced on Red Hat Linux or Suse Linux by the customer, the problem will be taken in charge by AUTOMIC.

## Inter Product Compatibility

**Notes:**

- (1) Dollar Universe Explorer Compatibility:
  - Repository or reference node: version 6201 or superior
  - Dollar Universe production nodes (non reference node) in version and update: 6201 or superior
- (2) UVMs to DUAS compatibility:
  - The patch level for DUAS 5.3 or 5.6 must be the latest GA cumulative fix,
- (3) Available starting 6.8.21, V5.6 node needs to have last level of GA cumulative patch
