# Introduction

*Welcome to the Guide for the CA User Group members.*

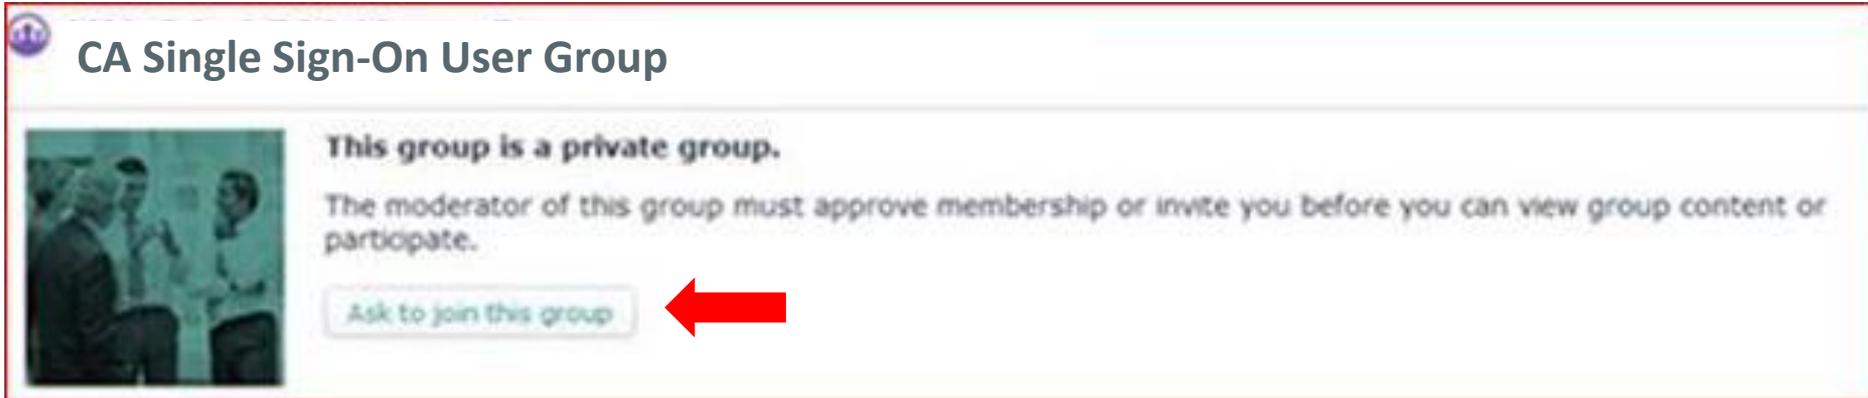

This guide is designed to help user group members in Europe get familiar with the CA Communities new platform. It is also intended to provide some Best Practices to help members get involved in their User Group activities & be active contributors.

# How can I get involved with the Community ?

# 1) Join the User Group to become member

1. <https://communities.ca.com/groups/france-ca-single-sign-on-user-group>
2. **Login** (email / password) - use your Support identification, or create an account
3. Click on **“Ask to join this group”**. Your request will be reviewed then Approved

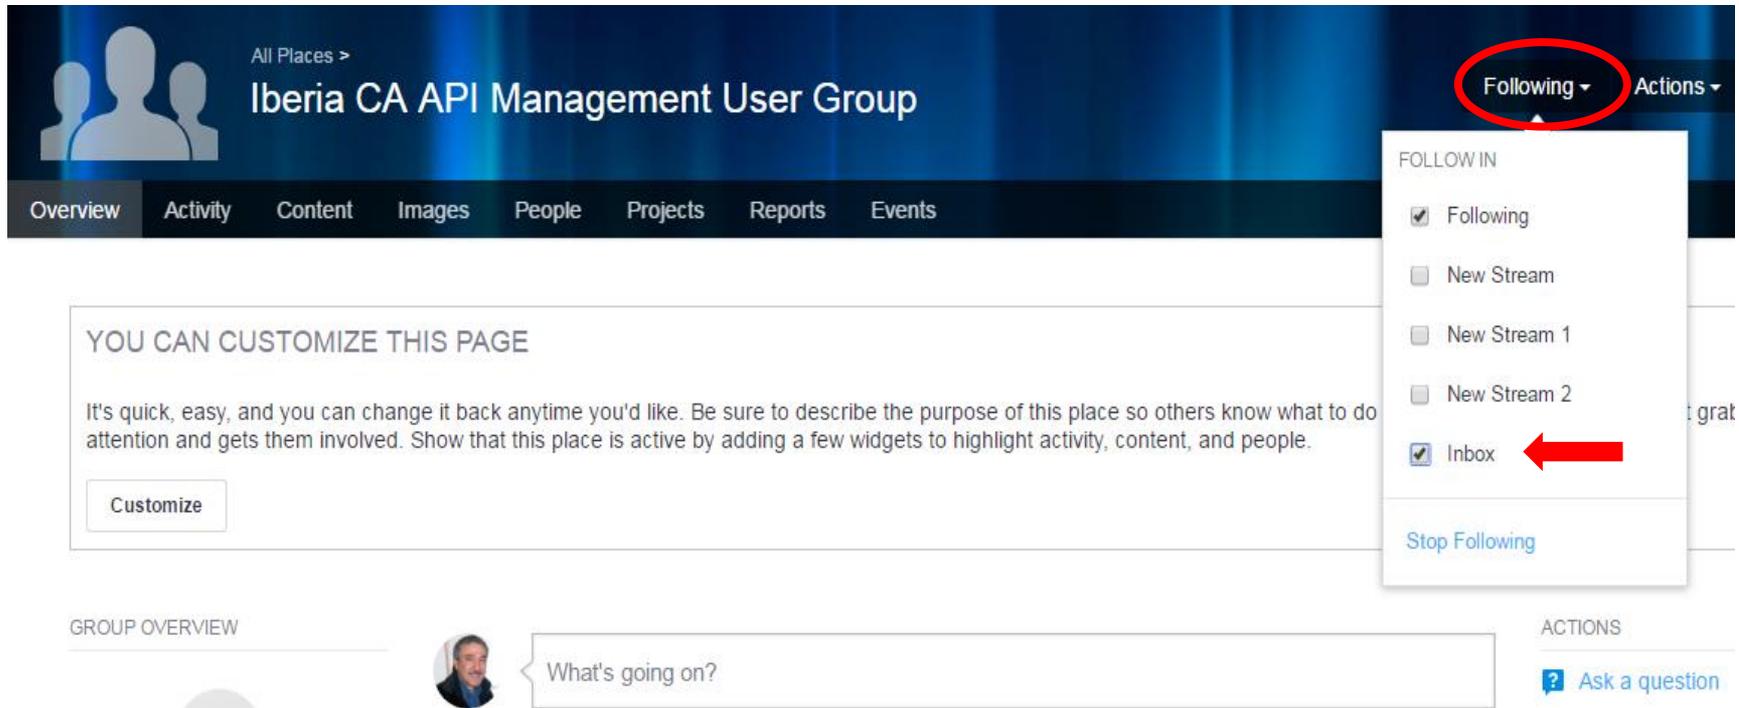

**CA Single Sign-On User Group**

**This group is a private group.**  
The moderator of this group must approve membership or invite you before you can view group content or participate.

[Ask to join this group](#)

## 2) Subscribe to the notifications to stay connected with the Community

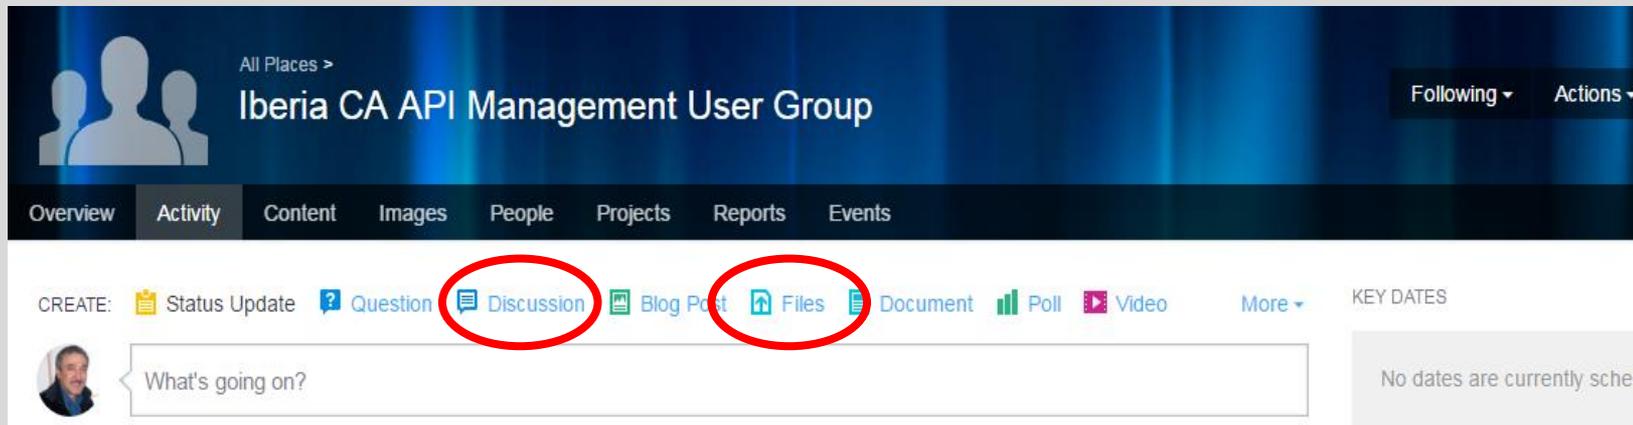

Click on **Following** box on the top right and Select the **inbox**

The screenshot shows the user interface for the 'Iberia CA API Management User Group'. At the top right, there are two dropdown menus: 'Following' and 'Actions'. The 'Following' menu is open, showing a list of options: 'Following' (checked), 'New Stream', 'New Stream 1', 'New Stream 2', and 'Inbox' (checked). A red arrow points to the 'Inbox' option. Below the dropdown menu, there is a 'Stop Following' link. On the left side of the page, there is a section titled 'YOU CAN CUSTOMIZE THIS PAGE' with a 'Customize' button. Below that, there is a 'GROUP OVERVIEW' section with a profile picture and a text box containing 'What's going on?'. On the right side, there is an 'ACTIONS' section with a 'Ask a question' button.

### 3) Be active contributor

- **Get involved in the user group activities.** Make suggestions, topics for next meeting.
- **Share your experience & knowledge**
  - in-Person meetings: User presentation ...
  - Online: **'Action'** to start a conversation (**'Discussion'**) or share document (**'Files'**) ...

The screenshot shows the user interface for the 'Iberia CA API Management User Group'. At the top, there is a header with a group icon, the text 'All Places > Iberia CA API Management User Group', and buttons for 'Following' and 'Actions'. Below the header is a navigation bar with tabs: 'Overview', 'Activity', 'Content', 'Images', 'People', 'Projects', 'Reports', and 'Events'. Underneath the navigation bar is a 'CREATE:' section with various options: 'Status Update', 'Question', 'Discussion', 'Blog Post', 'Files', 'Document', 'Poll', and 'Video'. The 'Discussion' and 'Files' options are circled in red. To the right of the 'CREATE:' section is a 'KEY DATES' section with the text 'No dates are currently sche...'. Below the 'CREATE:' section is a text input field with a placeholder 'What's going on?' and a profile picture of a man.

- **Contribute to enhance the solution** (Ideation ...)

## 4) Connect with people

- 1) Click on **People** tab and use the sorting options to filter and find relevant people
- 2) Click on **Follow** tab on the bottom right and choose whether to follow that user via your inbox or connections stream.
- 3) Click on **Message** tab on the bottom right to send private message

## 5) Update your profile

- 1) Click on the drop menu on the top of the page
- 2) Click on **Preferences** and update your time zone, language, ...
- 3) Click on **Edit Profile** to load your photo, update your Biography, ...

## 6) Contribute to enhance the solution

**Ideation:** Submit & vote for Product Enhancement ideas

Submitting ideas  
for product  
enhancements

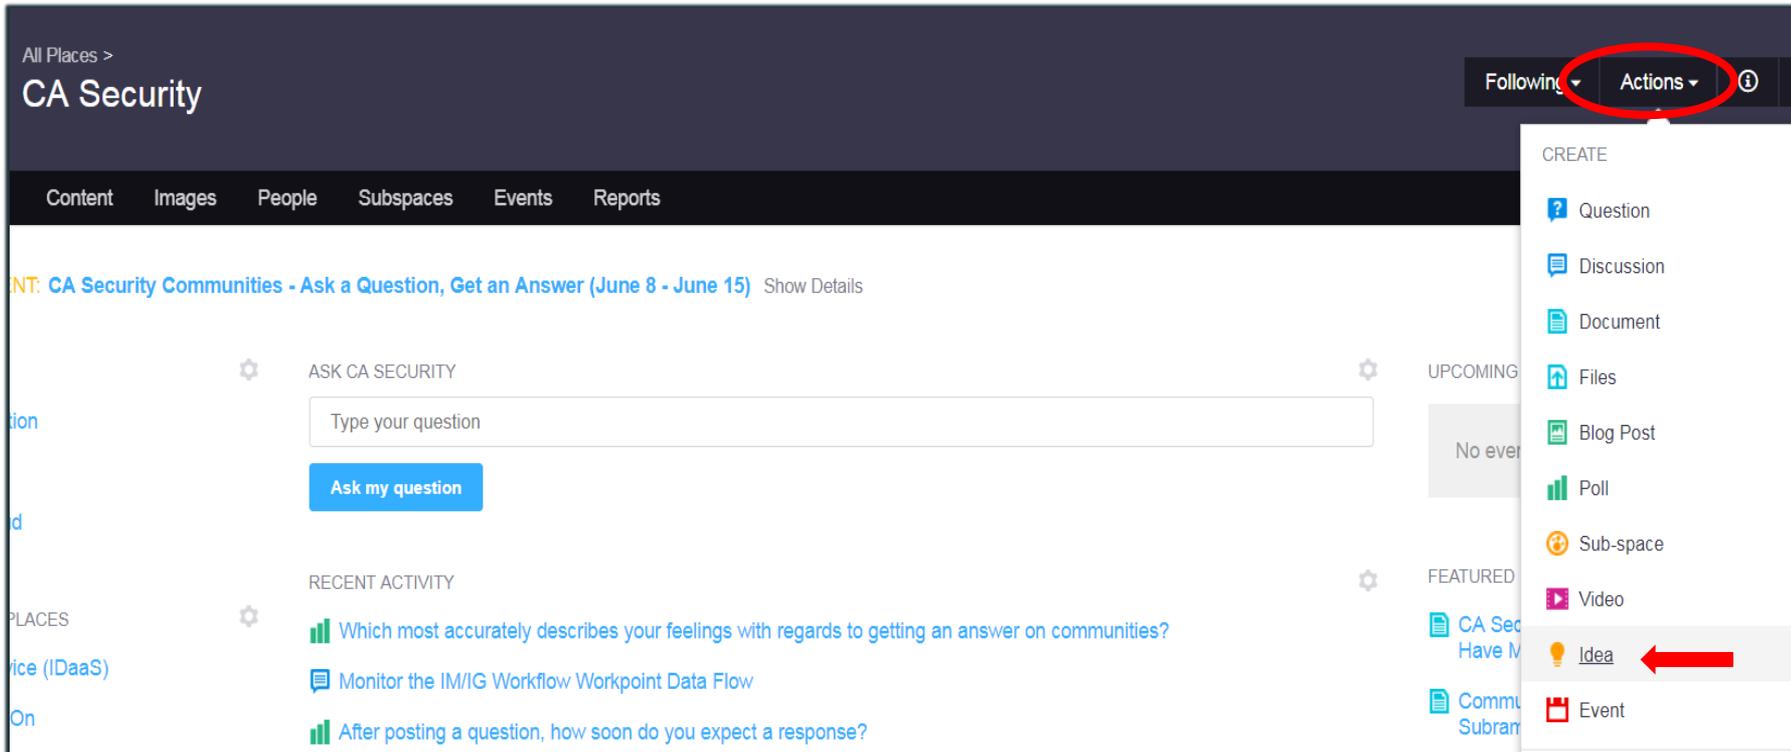

Voting on and discussing  
ideas from other  
community members

Opting into product validation  
programs to test incremental process  
and provide feedback that will  
influence the next software iteration

# Ideation: **Submit ideas for product enhancements**

- 1) Global Community: <https://communities.ca.com/community/ca-security>
- 2) Login (email / password)
- 3) Click on **Action** tab on the top, then **Ideas**

The screenshot shows the CA Security community page. At the top right, the 'Following' and 'Actions' tabs are visible, with 'Actions' circled in red. A dropdown menu is open from the 'Actions' tab, listing various content creation options. The 'Idea' option, represented by a lightbulb icon, is highlighted with a red arrow pointing to it. The main content area of the page includes a search bar, a 'ASK CA SECURITY' section with a text input field and an 'Ask my question' button, and a 'RECENT ACTIVITY' section with several poll results.

# Ideation: Vote for ideas from community members

- 1) Click on **Content** tab,
- 2) Click on **Ideas** (💡) to list all the ideas
- 3) **Open an idea** by clicking on it

The screenshot shows the 'CA Security' community page. The 'Content' tab is highlighted with a red circle and a '1' in a grey box. Below the navigation bar, the 'Ideas (282)' link is highlighted with a red circle and a '2' in a grey box. The main content area displays a list of ideas. The first idea, 'Implement OpenId signature in CA SSO with HS256/HS512 algorithms', is highlighted with a red circle and a '3' in a grey box. The table below shows the details of the ideas.

Title	Author	Latest activity	Views	👍	🔖	💬	⚙️
💡 Implement OpenId signature in CA SSO with HS256/HS512 algorithms 22 UNDER REVIEW	FRANCESCO MASCIOLI	May 15, 2018 12:27 AM	539	-	0	2	⚙️
💡 End user emails localized in different languages 22 NOT PLANNED	OLEG KUPERSHMIDT	December 16, 2015 5:17 PM	353	-	0	1	⚙️
💡 Office 365 provisioning from SaaS 17 NOT PLANNED	STEFANO Sali	April 11, 2018 6:35 AM	364	-	0	3	⚙️
💡 Show CSV records count/numbers on Bulk Loader Task Approver Task 17 CURRENTLY PLANNED	Ram Majeti	November 1, 2017 12:19 PM	659	-	0	1	⚙️
💡 CA Secure Cloud support for Safari browsers 16 DELIVERED	OLEG KUPERSHMIDT	February 8, 2016 8:50 AM	307	-	0	2	⚙️

# Ideation: **Vote for ideas from community members**

4) **vote** through the button “Vote up”

## Implement OpenId signature in CA SSO with HS256/HS512 algorithms

Idea created by FRANCESCO MASCIOLI  on Sep 20, 2017

---

The latest version of CA SSO 12.7 has added OpenId client and Authorization providers, which allows to enlarge the federation spectrum to new protocols and new service providers.  
This feature allows to manage also the simpler JWT federation and integration.  
Unfortunately for (CA SSO) the most common algorithm used for JWT tokens are HS256 and HS512, but this algorithms are not yet available in the current configuration.

# Ideation: Benefits

- Enables transparency and turns enhancement requests into conversations
- Places context around the priority and value of an idea
- Maximizes the input of our customers into our development process
- Provides a timely decision for customers' ideas
- Keeps customers informed of decision and status changes
- Builds trust with our customers that we are building products based on open, transparent and collaborative process
