Course Overview

CA Librarian® for z/OS, for z/VSE and for z/VM (CA Librarian) is a highly sophisticated and flexible storage medium of source programs and other sets of data records that provides comprehensive change management. It also provides a collection of service facilities for simplifying application management.

This course provides an overview of CA Librarian.

This Course Will Show You How To:

- Describe the features of CA Librarian
- Describe the interfaces for CA Librarian
- Describe how CA Librarian can be used in a specific use case
- Find more information on CA Librarian
