

# CA 7® Workload Automation: REST API User Programming 200

## EDUCATION COURSE DESCRIPTION

### **SUPPORTED PRODUCT RELEASE(S)**

CA 7® Workload Automation  
REST API  
Version 12.1.0.1

### **COURSE TYPE, LENGTH, & CODE**

- Web-Based Training (WBT)
- 30 Minutes
- 06SEV20120

## Course Overview

The CA 7 REST API is an application programming interface to a number of CA 7 services. In accordance with widely accepted REST (REpresentational State Transfer) architectural guidelines, each service handles request and response parameters in either JSON or XML format. Services are requested using standard HTTP operations like GET, POST, PUT, and DELETE.

This course shows you how to access and use the CA 7 REST API services.

## This Course Will Show You How To:

- Log in to the Swagger UI
- Use the Swagger UI to:
  - View CA 7 REST API version and configuration information
  - Issue commands
  - View Event Manager requests and job specific information
  - Perform CA 7 REST API Administration functions
