

German CA PLEX 2E User Group Meeting 2012
 Agenda für das User Group Meeting 2012 am 29. Oktober 2012 in Mannheim

Zeit	Titel	Thema	Company	Person
09:30:00	Begrüssung		UG	Arthur Häberli, Axel Oberländer
09:40:00	RIA web with CA Plex, Websyidian and ExtJS in 45 minutes	Model your Plex/Websyidian web solution directly in Plex creating rich internet applications from pre-delivered patterns. Or modify the patterns to create your own look. In this session we show you how to model, generate, build and deploy – from scratch.	Websyidian	Niels Peter Sørensen
10:25:00	Intuitive und effektive Ersatzteilbestellung für den Autowerkstättenalltag	Wie in vier Monaten mit Websyidian und Plex aus einem Standard Web Katalog ein anwenderfreundlicher und intuitiver Katalog als WebApp kreiert wurde.	CARAT Systementwicklungs- und Marketing GmbH & Co. KG	Norbert Killenberger
10:55:00	Tools4Plex	1. SchemalImport und TripleBooster - Performance SpeedUp beim Data-Modelling 2. ImplName Builder - AutoNaming und AutoRenaming 3. DataMover - DB-übergreifendes kopieren von Daten (incl. Datatype-Mapping) 4. PlexXML-Assistent - Automation für PlexXML WebClient 5. Modernisieren von CA 2E Anwendungen	Teamconsult	Axel Oberländer, Thomas Vogler-Eckermann
11:40:00	CA Technical Information Xinfo strategy - overview & key		CA	William Weidenborner, Technical Information Engineer, CA Technologies
11:50:00	MyCA - New features		CA	Abdel Laabi, Principal Community Programs, CA Technologies
12:00:00	Mittagessen			
13:30:00	CM WebClient	CM WebClient generates rich web and mobile apps directly from your existing Plex models and panel designs, with limited learning curve. We will demonstrate the new features of 1.8, including touch optimized mobile support, themes, accordion menus, and more.	CM First Group	John Rhodes
14:15:00	CM MatchPoint	CM MatchPoint Application Lifecycle Manager 5.1 unterstützt die ALM-Prozesse für CA Plex- und Web-Andwendungen durch den erweiterten Java-Import sowie SVN-Integration. CM MatchPoint stellt ausserdem ein Web- und Mobile-Interface zur Verfügung, um sämtliche Projektmitarbeiter in den ALM-Prozess einzubinden.	CM First Group	Christoph Heinrich
15:00:00	Diskussion			
15:15:00	Kaffee			
15:30:00	CA Plex and CA 2E Development Update	The CA Plex r7.0 and CA 2E r8.6 releases marked exciting milestones for both products. In CA Plex, the introduction of the highly anticipated new .NET Client Generator sets the foundation on which next-generation Windows applications can be built. In CA 2E, the adoption of the Scrum Agile methodology has proved to be a system enabling us to innovate faster, with a greater degree of user input and consequently higher quality features delivered as a result. In addition to discussing the various marquee features of both releases, we will talk about the post-release activities that the CA Plex and 2E teams have been involved with in order to create future releases that build on these important milestones.	CA	Robert Layzell
16:30:00	GV und wrap up		UG	Arthur Häberli
17:00:00	get Together
