Tuesday   **January 20th, 2015**

Type	Start	End	Session	Speaker	Title	Abstract
All	7:00	7:30		Aloft to CA Plano	Aloft will provide 2 shuttles	Leaves on the half hour (7:00AM, 7:30AM, 8:00AM)
All	8:00	8:30		CA Staff	CA Plano - ground level	Registration table next to elevators
Split Education	8:30	12:00	**EDBA01**	CA Staff	Introduction to DBA - Part 1	This 3.5 hour session will cover the three modules of the Intro DBA course: Mod-1 Relational Concepts Mod-3 Multi-User Facility Mod-4 Database Creation The instructor will break for 30 minutes at an appropriate time

			EAPP01 EAPP02	CA Staff	Application Development - Part 1	This 3.5 hour session will cover:
						   EAPP01 - Basics of navigational programming (RAAT/SAAT) - 1 hour
						   EAPP02 - Ideal basics - (2 hours)
						
						The instructor will break for 30 minutes at an appropriate time

			EEXP01	CA Staff	Experienced DBA - Part 1	This 3.5 hour session will cover of detailed subjects: 08:30-09:00 Intro and plan for the day SQL Ideation Review Online Reorg Review Online Move Review Change capture and auditing (ideation) Server Ideation The instructor will break for 30 minutes at an appropriate time.
Lunch	12:00	1:00		CADRE Sponsored	Lunch for education attendees	Lunch will be provide by CADRE for education attendees and instructors.
Split Education	1:00	5:00	**EDBA02**	CA Staff	Introduction to DBA - Part 2	**EDBA2** This 4.0 hour session will cover the four modules of the Intro DBA course: Mod-6 DBUTLTY use Mod-9 Maintaining Multi-User Facility Mod-10 Logging, Pipeline, Recovery Mod-13 Problem Determination The instructor will break for 30 minutes at an appropriate time

			EAPP03 EAPP04 EAPP05	CA Staff	Application Development - Part 2	This 4.0 hour session will cover:
						   EAPP03 - Using Ideal Web - 1 hour
						   EAPP04 - Using SQL language with Datacom - 1.5 hours
						   EAPP05 - Using ODBC/JDBC with Datacom - 1 hour
						
						The instructor will break for 30 minutes at an appropriate time.

			EEXP02	CA Staff	Experienced DBA - Part 2	This 4.0 hour session will cover of detailed subjects: TBD The instructor will break for 30 minutes at an appropriate time.
Dinner	5:00	6:00		CA Sponsored	Light dinner for education attendees	Light dinner will be provided by CA for education attendees and instructors. (CA CAFÉ is not available)

Split Education	6:00	8:00	**EDBA03**	CA Staff	Introduction to DBA - Part 3	**EDBA3** This 2.0 hour session will cover remaining items from the DBA course, attendees will vote on which items need to be covered: Mod-7 Batch User Requirements Tables Mod-8 Online User Requirements Tables Mod-14 Sysplex/MUFplex environments Mod-15 CICS Services Mod-17 Monitoring User Requirements Tables Mod-14 Sysplex/MUFplex environments
			EFGP01 **EFGP02** **EFGP03** **EFGP04**	CA Staff	Focus Groups	Application and DBAs attendees will have the opportunity of selecting one of many different focus group. **EFGP01** - Using DDOL **EFGP02** - Using SYSVIEW **EFGP03** - Using Datacom Server **EFGP04** - Using CA MAT **EFGP05** - Using DQRY **EFGP06** - Using Online Reorg **EFGP07** - Using Online Area Move
All	8:00	8:30		Return to Aloft	Aloft will provide 2 shuttles	Leaves on the half hour (8:00PM, 8:30PM)
Reception	8:30	9:30		Aloft Hotel Sponsored	Reception for attendees staying at ALOFT (only).	The ALOFT hotel is providing a CTC reception in the lobby/bar area for attendess staying at Aloft.

Wednesday   **January 21st, 2015**

Type	Start	End	Session	Speaker	Title	Abstract
All	7:00	7:30		Travel to CA Plano	Aloft Shuttles	Leaves on the half hour (7:00AM, 7:30AM, 8:00AM)
All	8:00	8:30		CA Staff	CA Plano - ground level	Registration table next to elevators
Full session	8:30	9:00	CTC01	CADRE and CA	Conference Welcome	Dick and Kevin will Welcome the attendees, cover logistics, introduce Mike Madden.
Keynote	**9:00**	**10:00**	**CTC02**	**Mike Madden**	**CA Mainframe Strategy**	**Michael Madden is the general manager of the Mainframe Business Unit and Executive Leadership Team member. He is responsible for delivering our next-generation Mainframe Strategy focused on driving innovation and growth.** **Michael joined CA Technologies in October 2012 with over 25 years of management experience leading and growing all aspects of product organizations including strategy, operations management, partnerships and effective development models.** **He brings tremendous passion, energy and focus to the CA Mainframe organization and is a strong supporter of the CA Datacom community.**
Break	10:00	10:30		CA Sponsored	Light breakfast snack provided CA Datacom team	Snacks and beverages break area next to MPR room. (CA CAFÉ is available for attendees looking for a different selection.
Full session	10:30	11:30	CTC03	CA Staff	CA Datacom/Ideal Roadmap	In this session the speakers will provide a brief overview of the CA Datacom/Ideal Roadmap with the many new features available is the Version 14.01 and Version 15.0 delivered during 2014 . The session will also detail new enhancements being targeted for delivery in the current agile project - V14.02.
Full session	11:30	12:30	CTC04	CA Staff	Version 15.0 Differences	In this session the speakers will provide a brief overview of the many new features available is the Version 15.0 delivery (GA Sept 2014) of DB, DD, DQ, SQL, CICS Services, Server, Ideal and IPC.
Lunch	12:30	1:30		CA Sponsored	Lunch for session attendees	CA will provide lunch for attendees and instructors. (CA CAFÉ is available for attendees looking for a different lunch selection.
Split Sessions	1:30	2:30	CTC05	CA Staff	V15.0 Upgrade Paths	In this session the speaker will provide a detailed overview of the three current paths the customer can use to upgrade from Version 14.0 to Version 15.0.
			CTC06	CA Staff	CA Ideal V15.0 Web Documents	In this session the speaker will provide a detailed overview of the new Ideal web document support.
			1 on 1	As assigned	As requested by customers and availability permits	Customers can arrange for a 1 on 1 with CA personnel as well as other attendees. See the recepion desk to register.
Split Sessions	2:30	3:30	CTC07	User Presentation Owen Williams	Performance tuning in the 'real world'	With limited and reducing resources (both human and infrastructure) this session describes tuning methods that achieved significant cost reductions alongside both performance and service improvements at mixed Datacom, SQL, Ideal and MetaCOBOL+ installations. It also covers enhancement over several CA Datacom releases that change the way we approach tuning.
			CTC08	CA Staff	SQL Connectivity Lab	In this session the speaker will provide a detailed review of the use of the SQL and Server to connect to and access CA Datacom data.
			1 on 1	As assigned	As requested by customers and availability permits	Customers can arrange for a 1 on 1 with CA personnel as well as other attendees. See the recepion desk to register.
Split Sessions	3:30	4:30	CTC09	CA Staff	V14.01 Online Area Move	In this session the speaker will provide a detailed overview of how to implement and use the Online Area Move Facility

			CTC10	CA Staff	Using the SQL Optimization and CBS Diagnostic reports	In this session the speaker will provide a detailed review of the use of the SQL optimization and CBS diagnostic reports to analyze SQL queries.
			1 on 1	As assigned	As requested by customers and availability permits	Customers can arrange for a 1 on 1 with CA personnel as well as other attendees. See the recepion desk to register.
Break	4:30	4:45		CA Sponsored	Soft drinks and light afternoon snacks provided by CA Datacom team.	Snacks and beverages break area next to MPR room. CA Café will not be available.
Full session	4:45	5:30	CTC11	CA Staff with User	CADRE Community Session	This session will review the new CA /CADRE community site and its various abilities for customers to utilize presents by a CA communities leader with a CADRE member who uses it on a daily basis.
Full session	5:30	6:00	CTC12	CADRE	CADRE General Session	CADRE leaders will provide an update on the current CADRE activities and recognize certain individual contributions.
All	6:00	6:30		Return to Aloft	Aloft Shuttles	Leaves on the half hour (6:00PM, 6:30PM)

Dinner	7:00	9:30		Tailgaters	CA Sponsored Event	CA will provide a casual dinner for attendees and instructors. At a location near the Aloft hotel.

Thursday   **January 22nd, 2015**

Type	Start	End	Session	Speaker	Title	Abstract
All	7:00	7:30		Travel to CA Plano	Aloft Shtles	Leaves on the half hour (7:00AM, 7:30AM, 8:00AM)
All	8:00	8:15		CA Staff	CA Plano - ground level	Registration table next to elevators
All	8:15	8:30	CTC01 - 2	CADRE	Welcome to CTC day 2	Dick will welcome attendees and introduce David Hodgson.
Keynote	8:30	9:30	CTC13	David Hodgson	Data Management for the Application Economy	Traditional data management is changing rapidly. Last year, CA reorganized several product families into the Data Management Business Line to create synergies for Datacom and CA's other data management suites, and position CA to introduce solutions that address the emerging requirements around "Big Data". Since the release of Hadoop 2.0, distributed big data environments are emerging within many enterprises and they are realizing they need a more efficient way to view, monitor and manage their ever growing and disparate data environments that can include one or more Hadoop distributions and even the mainframe. Big Data is here; let's talk about what it can it do for your business. David will guide you through CA's roadmap for its Data Management solutions.
Break	9:30	10:00		CA Sponsored	Light breakfast snack provided CA Datacom team	Snacks and beverages break area next to MPR room. (CA CAFÉ is available for attendees looking for a different selection.
Keynote	10:00	11:00	CTC14	Mike Harer	Managing Your Big Data Environments	At CA World, CA introduced its Big Data Infrastructure Management solution. Since the release of Hadoop 2.0, distributed (Hadoop) big data environments are emerging rapidly within many enterprises. And these environments grow more complex as business reality often leads to supporting disparate data environments which can include multiple Hadoop distributions, NoSQL databases and even the Mainframe. This session will focus on how companies can have a more efficient way to view, monitor and manage these complex Big Data environments and how to address data integration challenges in the modern Big Data ecosystem.
Keynote	11:00	12:00	CTC15	Vikas Sinha, Praveen Verma, and CA Datacom customer validation partners	Participating in the agile development process	Agile Scrum is the software development methodology that has taken the IT world by storm, because it helps developers deliver what users really need, when they need it. CA Technologies as a company and the mainframe business in particular, has made a major commitment to Agile. The CA Datacom team completed the delivery of CA Datacom V15 using agile. CA Datacom V14.01 was developed completely using agile. Our next project V14.02 is already under development using Agile, and will be delivering the next release using Agile and the new CA mainframe incremental release policy.
General Lunch	12:00	1:00		CA Sponsored	Lunch for session attendees.	CA will provide lunch for attendees and instructors. (CA CAFÉ is available for attendees looking for a different lunch selection.
Sprint Review - V14.02 Sprint 2	12:15	1:00		Agile team and customer validation partners	Grab a lunch selection and head over to participate in an agile Sprint Review.	Attendees are invited to attend a short V14.02 sprint review where our customer validation partners get to see what has been completed this sprint and provide their guidance. If time permits we will look ahead to sprint three for V14.02
Split Sessions	1:00	2:00	CTC16	Owen Williams	Introducing Parallel Development & Testing Centre of Excellence	In this session the speaker will provide a detailed overview of how to implement parallel development and test environments for the CA Datacom site.

			CTC17	CA Staff	Using CA Mainframe Application Tuner with CA Datacom environments	In this session the speaker will provide a detailed overview of the newest tool available to analyze CA Datacom Applications.
			1 on 1	As assigned	As requested by customers and availability permits	Customers can arrange for a 1 on 1 with CA personnel as well as other attendees. See the recepion desk to register.
Split Sessions	2:00	3:00	CTC18	Bob Bogan	Using CDC and CDC Plus	In this session the speaker will provide a detailed overview of how to implement and use the CA Datacom change capture and change capture PLUS facilities.
			CTC19	CA Staff	CA Ideal Programming Tips & Tricks	In this session the speaker will provide a review of special techniques and tricks to make your Ideal coding better.
			1 on 1	As assigned	As requested by customers and availability permits	Customers can arrange for a 1 on 1 with CA personnel as well as other attendees. See the recepion desk to register.
Break	3:00	3:30		CA Sponsored	Soft drinks and light afternoon snacks provided by CA Datacom team.	Snacks and beverages break area next to MPR room.
Split Sessions	3:30	4:15	CTC20	CA Staff	CA Datacom Active-Active Implementation	In this session the speaker will provide a detailed overview of how the first phase of Active-Active (known as Active-Query) that has been incorporated in V14.01 and will provide a live demo.
			CTC21	CA Staff	Using the SQL Monitor to monitor SQL (including the V15.0 SQL Source Cache)	In this session the speaker will provide a detailed overview of the SQL monitor and its ability to monitor SQL statements and its abilities for the new SQL Source Cache.
			1 on 1	As assigned	As requested by customers and availability permits	Customers can arrange for a 1 on 1 with CA personnel as well as other attendees. See the recepion desk to register.
Split Sessions	4:15	5:00	CTC22	CA Staff	Best Practices for Managing Your CA Datacom Software	This session will review the best practices for installing and maintaining your CA Datacom software.
			CTC23	CA Staff	Using new functionality provided in SQL V14.01 and V14.02	New features – Scroll Cursor and UDFT, Table Elimination, Multiple Tables Under an OR
			1 on 1	As assigned	As requested by customers and availability permits	Customers can arrange for a 1 on 1 with CA personnel as well as other attendees. See the recepion desk to register.
All	5:00	5:30		Return to Aloft	Aloft shuttles	Shuttles at 5:00 and 5:30

All	6:00	6:15		Event Bus	CADRE sponsored bus to event	Bus leaves at 6:15 (20 minute ride to event)
Event	6:30	9:45		Ranch	CADRE sponsored event night	Dinner and fun at a local ranch
All	9:45	10:00		Event Bus	CADRE sponsored bus to event	Bus will return attendees to ALOFT directly

Friday   **January 23rd, 2015**

Type	Start	End	Session	Speaker	Title	Abstract
All	7:00	7:30		Aloft to CA	Aloft Shuttles	Shuttles leave at 7:00, 7:30, 8:00AM
All	8:00	8:15		CA Staff	Luggage storage	CA Plano will have an are to store baggage for the morning.
Full session	8:15	8:30	CTC01 - 3	CADRE	**Session: CTC01 Day3** Welcome to CTC day 3	Dick will welcome attendees and remind about session reviews and conference Review
Split Sessions	8:30	9:30	CTC24	Clyde McPherson	High Availability and 24x7x365	In this session the speaker will provide a detailed review of how their site maintains high-availability for their CA Datacom systems
			CTC25	CA Staff	Coding an ODBC/JDBC application to work with Datacom Server.	In this session the speaker will provide an overview of the steps used to code and execute ODBC/JDBC applications with Server
			1 on 1	As assigned	As requested by customers and availability permits	
Break	9:30	10:00		CA Sponsored	Light breakfast snack provided CA Datacom team	Snacks and beverages break area next to MPR room. CA CAFÉ is available for attendees looking for a different selection.
Split Sessions	10:00	11:00	CTC26	CA Staff	Performance tuning and reducing TCO	This session is a re-working of the session from CA 2012 (Application Olympics) that walks through the steps needed to implement and improve performance tuning.
			CTC27	CA Staff	Best practices fro accessing Datacom from Big Data	In this session the speaker will provide a demonstration of accessing CA Datacom and pulling the data into a big data database.
			1 on 1	As assigned	As requested by customers and availability permits	
Split Sessions	11:00	12:00	CTC28	CA Staff	V12.0 upgrade paths to Version 14.0	In this session the speaker will provide a detailed overview of the three current paths the customer can use to upgrade from Version 12.0 to Version 14.0.
			CTC29	CA Staff	Using Dataquery/DQ Admin	In this session the speaker will lead the group through the creation and execution of queries under DQRY including NOVICE and EXPERT mode.
			1 on 1	As assigned	As requested by customers and availability permits	
Break	12:00	12:15		CA Sponsored	Light snack provided CA Datacom team	Snacks and beverages break area next to MPR room. CA CAFÉ is available for attendees looking for a different lunch selection.
Full session	12:15	12:45	CTC30	CADRE and CA Staff	CADRE Closing Session	CADRE leaders will review the conference, provide information on what's next and close the conference.
Full session	12:45	2:00	CTC99	CADRE and CA Staff	Technical Conference Review and follow-up	This will be a working session to review what was good, what was bad, what we could do better next time.
Board Bus	??	??		Return to Aloft	Call for shuttle to return to Aloft	Attendees who want to return to Aloft can call for shuttle pickup.
Travel	2:00	5:00		Return to Airport	45-60 minute drive, 15 minute car check-in, 1 hour security check-in, 1 hour before flight	Have a great flight home.
