

TRACK IV: Client/Server
Session 400

***5 LINES OF CODE CAN “MAKE
YOUR DAY”***

“Exceed Our Customers Highest Expectations
Through Technical Excellence”

1

***5 LINES OF CODE CAN
“MAKE YOUR DAY”***

- Small Client/Server Routines That Improve Your System
- Routines Written Inside and Outside COMPOSER

“Exceed Our Customers Highest Expectations
Through Technical Excellence”

2

THE HOMES SYSTEM

- Supports Management of U.S. Army's \$36 Billion Housing Investment
- 6 Modules
 - Assignments & Termination/Community Homefinding, Relocation & Referral Service -- IEF Block Mode
 - Lodging -- Composer Client Server
 - Furnishings -- C
 - HQ HOMES -- Informix 4GL

"Exceed Our Customers Highest Expectations
Through Technical Excellence"

3

LODGING OBJECTIVE

- To make traveling, and arriving at a new post easier for the soldier.
- To insure that the housing guidelines are followed.
- To provide local and nationwide reporting of usage information.
- To Provide the operators of the transient housing an "easy to use" system with room for growth.

"Exceed Our Customers Highest Expectations
Through Technical Excellence"

4

LODGING IMPLEMENTATION

- Stand-Alone UNIX Mini-Computer/IBM Workstations to be located at more that 100 sites.
- System supports Army Transient Housing Quarters.
 - Roughly equivalent to a Hotel Reservation System with very complex add-ons.

"Exceed Our Customers Highest Expectations
Through Technical Excellence"

5

LODGING ARCHITECTURE

- COMPOSER generated.
- Windows 3.11 Client -- HP9000 Server with Informix
- Design is Fat Client Because of Lack of Report Writer
- Routines That Follow Built to Support This Environment

"Exceed Our Customers Highest Expectations
Through Technical Excellence"

6

THE SMALL ROUTINES

- Error Messages within COMPOSER
- Single Instance Windows for MS Windows
- Log-in with Visual Basic
- Calling Windows Desktop Applications
- The “HELP” System

“Exceed Our Customers Highest Expectations
Through Technical Excellence”

7

ERROR MESSAGES WITH COMPOSER

- Composer EXIT STATES are hard coded.
- System needed:
 - Dynamic messages
 - Customized error messages
 - Errors that “pop a box” recorded in one place
 - » Not hidden throughout the code
 - Archive, Log, Shutdown

“Exceed Our Customers Highest Expectations
Through Technical Excellence”

8

ERROR MESSAGES #1

■ SIGNIFICANT ADVANTAGES

- Ability to Record Information When Error Occurs
- Easier to Maintain
 - » One Database File
 - » Don't Have to Subset to Change

"Exceed Our Customers Highest Expectations
Through Technical Excellence"

9

ERROR MESSAGES #2

■ More Informative Messages

- Composer Allows
 - » "Customer Not Found"
- This Routine Allows
 - » "Mr. Johnston Not Found"
 - » Guidance on Problem Correction

"Exceed Our Customers Highest Expectations
Through Technical Excellence"

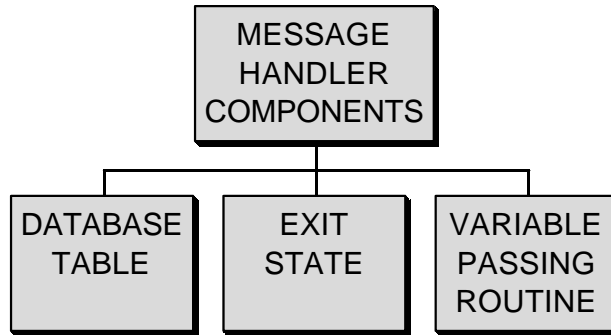

10

ERROR MESSAGES #3

MESSAGE HANDLER

"Exceed Our Customers Highest Expectations
Through Technical Excellence"

11

ERROR MESSAGES #4

EXIT STATE	DESCRIPTION
NORMAL	Show Message to User, Return with 'OK'
ROLL BACK	Show Message to User, Roll Back Database to Last 'Commit'
ABORT	Exit Application

"Exceed Our Customers Highest Expectations
Through Technical Excellence"

12

ERROR MESSAGES #5

■ HANDOUTS INCLUDE

- CALLING ROUTINE
- ACTION BLOCK
- COMPOSER DATABASE DECLARATIONS
- DATABASE STRUCTURE

"Exceed Our Customers Highest Expectations
Through Technical Excellence"

13

SINGLE INSTANCE WINDOWS

- WHEN TWO APPLICATIONS ARE
OPENED IN WINDOWS AND YOU CAN
SWITCH BETWEEN THEM WITHOUT
CLOSING THEM YOU ARE WORKING
WITH MODELESS WINDOWS**

"Exceed Our Customers Highest Expectations
Through Technical Excellence"

14

SINGLE INSTANCE WINDOWS #2

- WINDOWS, AS OBJECTS, HAVE PROPERTIES (Behavior)
 - MODELESS OR NON-MODELESS IS A PROPERTY
- MODELESS WINDOWS DO NOT REQUIRE A RESPONSE (THE 'OK' BUTTON) BE 'CLICKED' TO CLOSE THE WINDOW

"Exceed Our Customers Highest Expectations
Through Technical Excellence"

15

SINGLE INSTANCE WINDOWS #3

- COMPOSER DOES SUPPORT MODELESS WINDOWS, HOWEVER, IT ALLOWS MULTIPLE INSTANCES (2 VERSIONS OF THE SAME WINDOW OPENED TWICE)
- DANGER IS THAT OPENING MULTIPLE WINDOWS CAN CORRUPT DATABASE...ACCIDENTAL MULTIPLE "WRITES" TO THE DATABASE.

"Exceed Our Customers Highest Expectations
Through Technical Excellence"

16

SINGLE INSTANCE WINDOWS #4

- OBJECTIVE IS TO INSURE THAT WHEN MORE THAN ONE WINDOW IS OPENED ONLY ONE INSTANCE OF A WINDOW IS OPENED AT THE SAME TIME---NO DUPLICATES OF THE SAME WINDOW
- EXTERNAL C ROUTINE THAT CHECKS TO SEE IF THE WINDOWS IS OPEN, IF IT IS, IT BRINGS IT TO THE FORE FRONT

"Exceed Our Customers Highest Expectations
Through Technical Excellence"

17

SINGLE INSTANCE WINDOWS #5

- THE ROUTINE
 - “GET MODULE HANDLE”
 - USES TITLE AS IT APPEARS ON THE TITLE ON THE WINDOW

"Exceed Our Customers Highest Expectations
Through Technical Excellence"

18

VISUAL BASIC SPREAD SHEET #1

--	--	--	--	--	--	--	--	--	--

- OBJECTIVE -- PROVIDE A SPREAD SHEET TYPE APPLICATION BUT BLOCK WRITING CHANGES TO THE DATABASE.
- EXCEL ALLOWS CHANGES TO BE WRITTEN TO THE DATABASE
- VISUAL BASIC 'GRID' FUNCTION PROVIDES CAPABILITIES OF A SPREADSHEET USING 'READ-ONLY' DATA

"Exceed Our Customers Highest Expectations
Through Technical Excellence"

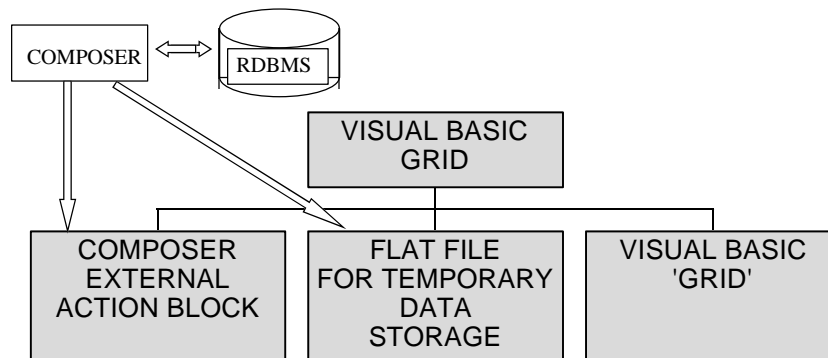

19

VISUAL BASIC SPREAD SHEET #2

--	--	--	--	--	--	--	--	--	--

"Exceed Our Customers Highest Expectations
Through Technical Excellence"

20

VISUAL BASIC SPREAD SHEET #3

--	--	--	--	--	--	--	--	--	--

- COMPOSER EXTERNAL ACTION BLOCK
 - INITIATED BY SELECTION ON SCREEN
 - READS DATABASE FOR PRE-DETERMINED DATA
 - WRITES TO A FLAT-FILE USING EXTERNAL ACTION BLOCK
 - REMAINS RESIDENT WHILE USER WORKS WITH VISUAL BASIC APPLICATION

"Exceed Our Customers Highest Expectations
Through Technical Excellence"

21

VISUAL BASIC LOG-IN PROCEDURE

--	--	--	--	--	--	--	--	--	--

- BEFORE LAUNCHING IEF NEEDED TO
 - LOGIN
 - ESTABLISHE/VERIFY DATABASE CONNECTION
- SUCCESSFUL LOG-IN LAUNCHES IEF

"Exceed Our Customers Highest Expectations
Through Technical Excellence"

22

VISUAL BASIC LOG-IN PROCEDURE #2

--	--	--	--	--	--	--	--	--	--

- VISUAL BASIC ROUTINE WRITTEN TO:
 - PERFORM LOG-IN,
 - ESTABLISH THE DATABASE CONNECTION,
 - LAUNCH COMPOSER APPLICATION
- CODE IS ON HAND OUT

"Exceed Our Customers Highest Expectations
Through Technical Excellence"

23

CALLING THE WINDOWS DESK TOP

--	--	--	--	--	--	--	--	--	--

- EXTERNAL C PROGRAM--C COMMAND TO WINEXE
- DESKTOP COMPONENT IS EMULATED AS A 'CHILD' OF THE COMPOSER APPLICATION
 - IF THE USER FAILS TO CLOSE THE DESKTOP COMPONENT WHEN THE COMPOSER APPLICATION CLOSED THE COMPOSER APPLICATION CLOSES THE DESKTOP COMPONENT

"Exceed Our Customers Highest Expectations
Through Technical Excellence"

24

THE “HELP” SYSTEM

- COMPOSER STORES ‘HELP’ IDs AS A PROPERTY OF THE INDIVIDUAL WINDOW
 - HELP IDs STORED THROUGHOUT THE APPLICATION
- HOMES HAS OVER 100 SCREENS
 - NEEDED A SINGLE ‘HELP’ FILE
 - COMPOSER SOLUTION DEEMED NOT ‘MAINTAINABLE’

“Exceed Our Customers Highest Expectations
Through Technical Excellence”

25

THE “HELP” SYSTEM #2

- HOMES CREATED A SEPARATE ‘HELP’ FILE

“Exceed Our Customers Highest Expectations
Through Technical Excellence”

26
