Product Announcements & Updates

[New "Risk" Work Items](#): This new work item type will allow you to track risks in Agile Central alongside all of your other work.

[Super Customizable CFD Improvements](#): The Cumulative Flow Diagrams (CFDs) app lets you further customize CFDs by choosing the type of item to track, the field you want to group by, and even the timeframe for the chart.

[Plan Progression in Open Beta](#)*: The purpose of this page is to have one place where you can see program level changes that have occurred throughout the release time-box after a plan in Capacity Planning has been published.

[#\[Fixed Defects\] for Jan 24](#): Our support and engineering teams are dedicated to improving your experience with CA Agile Central everyday/ Please check out the list of recently fixed defects.
