### WILL YOU BE AT THE GARTNER CATALYST CONFERENCE?

CA Technologies will be showcasing their Identity & Access Management solutions at the [Gartner Catalyst](#) Conference in San Diego, CA on August 15-18, 2016. Be sure to stop by the booth to discuss hot topics and attend our theater session:

- **Session:** Identity-Centric Cybersecurity: Enjoying Digital Business Transformation While Successfully Managing Risk
- **Speakers:** Michelle Waugh & Gedeon Hombrebueno
- **Time:** Monday, August 15th | 6:25-6:45pm
- **Location:** Solution Showcase Theater (on the show floor)

---

**PSD2 IS COMING, ARE YOU READY?**

The European Commission signed the revised Payment Services Directive (PSD2) into law in late 2015. This far-reaching regulation will impact how businesses and financial institutions secure payment transactions and open access to user accounts. CA Technologies is uniquely positioned to assist organizations with addressing PSD2. For more information, please watch the [video](#) or download the [CA Viewpoint](#) on PSD2.

## NEW CA IDENTITY SUITE RELEASE ESTABLISHES LEADERSHIP IN REAL-TIME ANALYTICS

We are excited to announce some very compelling capabilities in the new CA Identity Suite 12.6.8 release. One of the most exciting capabilities is new real-time analytics, which enables you to gain outstanding visibility into the effectiveness of your key identity services. In addition, the release includes some pre-configured user scenarios to greatly simplify the deployment of common customer use cases. Both of these capabilities provide industry-leading capabilities for the CA Identity suite. The major new features of this release include:

- **Real-time performance analytics** - monitor, measure, and optimize the performance of key identity processes
- **Pre-configured deployment scenarios** - dramatically simplify deployment of common use cases
- **Extensive certification enhancements** - customize the certification experience for each user's preference

To explore more of the features and benefits of this new release read through the [Release Notes](#) or watch a replay of a [Recent Webcast](#) featuring all new capabilities.

## ENABLE YOUR ECOMMERCE BUSINESS WITH SECURITY? YOU BET!

Today, digital is everywhere—big data, cloud, mobile, social and the Internet of Things are changing the way we all work and play. In this one hour [webinar](#) we'll take a look at three major challenges in retail: Digital transformation initiatives, Abandoned online shopping carts, and Online identity fraud and data breaches. You'll hear from experts from CA Technologies and Deloitte about how leading retailers are addressing these challenges and how a comprehensive Omnichannel Access solution can enable you to engage your customers in a secure and frictionless fashion across multiple devices and channels.

Additional resources include:

- **Executive Brief:** [Consumer Access Management for Retail](#)
- **eBook:** [Securing Consumer Portals: Consumer Access Management as a Business Driver and Protector](#)

## SECURING ONLINE SHOPPING: IT'S ALL ABOUT THE DATA

3D Secure is “primed for ignition” in the online shopping world... especially in the U.S., where the migration to EMV chip cards has resulted in an upward trend of card-not-present (CNP) fraud. In fact, it is estimated that in the U.S. alone, CNP fraud will reach approximately \$7 billion by the year 2020.

What many card issuers may not know is that 3D Secure is an ideal solution to combat this specific type of fraud.

What's more, card issuers can leverage the enhanced data set available to support a broader fraud strategy across CNP, brick and mortar, and even omni-channel segments. Want to learn more? Join us for an [on-demand webinar](#) to

explore:

- How 3D Secure has evolved since its introduction and common misconceptions about this protocol
- Where to properly utilize various types of data available within 3D Secure and how it can enhance an overall fraud strategy
- What industry experts say about the impact of 3D Secure data and existing partnerships to support U.S. issuers

## DON'T MISS OUR WEBINAR ON JUNE 28: YOU'VE GOT BASIC IDENTITY GOVERNANCE. NOW WHAT?

Have you implemented some sort of governance solution, and are wondering what the next step is? Join John Hawley, the Vice President of Security Strategy on **June 28 at 11 a.m. Eastern**, for an interesting look into the future of identity governance. John will reveal ways to expand the use of basic identity governance beyond its usual boundaries to include privileged users, contractors, and business partners, access to physical assets, and the critically important role of identity performance analytics in a governance deployment. Join us for an interesting and enlightening discussion. [Register Here.](#)
